

A1BG Antibody (C-term) Blocking Peptide

Synthetic peptide
Catalog # BP7322b

Specification

A1BG Antibody (C-term) Blocking Peptide - Product Information

Primary Accession [P04217](#)

A1BG Antibody (C-term) Blocking Peptide - Additional Information**Gene ID 1****Other Names**

Alpha-1B-glycoprotein, Alpha-1-B glycoprotein, A1BG

Target/Specificity

The synthetic peptide sequence used to generate the antibody [AP7322b](/products/AP7322b) was selected from the C-term region of human A1BG. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay.

Format

Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C.

Precautions

This product is for research use only. Not for use in diagnostic or therapeutic procedures.

A1BG Antibody (C-term) Blocking Peptide - Protein Information

Name A1BG

Cellular Location

Secreted.

Tissue Location

Plasma.

A1BG Antibody (C-term) Blocking Peptide - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Blocking Peptides](#)

A1BG Antibody (C-term) Blocking Peptide - Images**A1BG Antibody (C-term) Blocking Peptide - Background**

A1BG is a plasma glycoprotein of unknown function. The protein shows sequence similarity to the variable regions of some immunoglobulin supergene family member proteins.
