

Anti-ABCG1 Rabbit Monoclonal Antibody
Catalog # ABO13629**Specification****Anti-ABCG1 Rabbit Monoclonal Antibody - Product Information**

Application	WB, IHC, IF, ICC
Primary Accession	P45844
Host	Rabbit
Isotype	Rabbit IgG
Reactivity	Rat, Human
Clonality	Monoclonal
Format	Liquid

Description

Anti-ABCG1 Rabbit Monoclonal Antibody . Tested in WB, IHC, ICC/IF applications. This antibody reacts with Human, Rat.

Anti-ABCG1 Rabbit Monoclonal Antibody - Additional Information

Gene ID 9619

Other Names

ATP-binding cassette sub-family G member 1, 7.6.2.-, ATP-binding cassette transporter 8, White protein homolog, ABCG1 (http://www.genenames.org/cgi-bin/gene_symbol_report?hgnc_id=73), ABC8, WHT1

Calculated MW

75592 MW KDa

Application Details

WB 1:500-1:1000
IHC 1:50-1:100
ICC/IF 1:50-1:100

Subcellular Localization

Endoplasmic reticulum membrane ; Multi-pass membrane protein. Golgi apparatus membrane ; Multi-pass membrane protein. Predominantly localized in the intracellular compartments mainly associated with the endoplasmic reticulum (ER) and Golgi membranes.

Tissue Specificity

Expressed in several tissues. Expressed in macrophages; expression is increased in macrophages from patients with Tangier disease..

Contents

Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.

Immunogen

A synthesized peptide derived from human ABCG1

Purification

Affinity-chromatography

Storage

Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles.

Anti-ABCG1 Rabbit Monoclonal Antibody - Protein Information

Name ABCG1 ([HGNC:73](#))

Synonyms ABC8, WHT1

Function

Catalyzes the efflux of phospholipids such as sphingomyelin, cholesterol and its oxygenated derivatives like 7beta- hydroxycholesterol and this transport is coupled to hydrolysis of ATP (PubMed:[17408620](http://www.uniprot.org/citations/17408620)), PubMed:[24576892](http://www.uniprot.org/citations/24576892)). The lipid efflux is ALB-dependent (PubMed:[16702602](http://www.uniprot.org/citations/16702602)). Is an active component of the macrophage lipid export complex. Could also be involved in intracellular lipid transport processes. The role in cellular lipid homeostasis may not be limited to macrophages. Prevents cell death by transporting cytotoxic 7beta- hydroxycholesterol (PubMed:[17408620](http://www.uniprot.org/citations/17408620)).

Cellular Location

Endoplasmic reticulum membrane; Multi-pass membrane protein. Golgi apparatus membrane; Multi-pass membrane protein. Cell membrane Note=Predominantly localized in the intracellular compartments mainly associated with the endoplasmic reticulum (ER) and Golgi membranes

Tissue Location

Expressed in several tissues. Expressed in macrophages; expression is increased in macrophages from patients with Tangier disease.

Anti-ABCG1 Rabbit Monoclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
