

# Anti-Hexokinase 1 HK1 Rabbit Monoclonal Antibody

**Catalog # ABO14121** 

# Specification

# Anti-Hexokinase 1 HK1 Rabbit Monoclonal Antibody - Product Information

Application WB, IHC, IF, ICC, FC

Primary Accession
Host
Rabbit
Isotype
Rabbit IgG

Reactivity Rat, Human, Mouse

Clonality Monoclonal Format Liquid

**Description** 

Anti-Hexokinase 1 HK1 Rabbit Monoclonal Antibody . Tested in WB, IHC, ICC/IF, Flow Cytometry applications. This antibody reacts with Human, Mouse, Rat.

# Anti-Hexokinase 1 HK1 Rabbit Monoclonal Antibody - Additional Information

## **Gene ID 3098**

### **Other Names**

Hexokinase-1, 2.7.1.1, Brain form hexokinase, Hexokinase type I, HK I, Hexokinase-A, HK1 (<a href="http://www.genenames.org/cgi-bin/gene\_symbol\_report?hgnc\_id=4922" target="blank">HGNC:4922</a>)

## **Calculated MW**

102486 MW KDa

## **Application Details**

WB 1:500-1:2000<br>IHC 1:50-1:200<br>ICC/IF 1:50-1:200<br>FC 1:200

## **Subcellular Localization**

Mitochondrion outer membrane. Its hydrophobic N-terminal sequence may be involved in membrane binding.

# **Tissue Specificity**

Isoform 2 is erythrocyte specific. Isoform 3 and isoform 4 are testis-specific.

## **Contents**

Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.

#### **Immunogen**

A synthesized peptide derived from human Hexokinase 1

### **Purification**

Affinity-chromatography

Storage Store at -20°C for one year. For short term

storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles.

# Anti-Hexokinase 1 HK1 Rabbit Monoclonal Antibody - Protein Information

## Name HK1 (HGNC:4922)

## **Function**

Catalyzes the phosphorylation of various hexoses, such as D- glucose, D-glucosamine, D-fructose, D-mannose and 2-deoxy-D-glucose, to hexose 6-phosphate (D-glucose 6-phosphate, D-glucosamine 6-phosphate, D-fructose 6-phosphate, D-mannose 6-phosphate and 2-deoxy-D-glucose 6- phosphate, respectively) (PubMed:<a

href="http://www.uniprot.org/citations/1637300" target="\_blank">1637300</a>, PubMed:<a href="http://www.uniprot.org/citations/25316723" target="\_blank">25316723</a>, PubMed:<a href="http://www.uniprot.org/citations/27374331" target="\_blank">27374331</a>). Does not phosphorylate N-acetyl-D-glucosamine (PubMed:<a

href="http://www.uniprot.org/citations/27374331" target="\_blank">27374331</a>). Mediates the initial step of glycolysis by catalyzing phosphorylation of D-glucose to D-glucose 6-phosphate (By similarity). Involved in innate immunity and inflammation by acting as a pattern recognition receptor for bacterial peptidoglycan (PubMed:<a

href="http://www.uniprot.org/citations/27374331" target="\_blank">27374331</a>). When released in the cytosol, N-acetyl-D-glucosamine component of bacterial peptidoglycan inhibits the hexokinase activity of HK1 and causes its dissociation from mitochondrial outer membrane, thereby activating the NLRP3 inflammasome (PubMed:<a

href="http://www.uniprot.org/citations/27374331" target=" blank">27374331</a>).

## **Cellular Location**

Mitochondrion outer membrane; Peripheral membrane protein. Cytoplasm, cytosol. Note=The mitochondrial-binding peptide (MBP) region promotes association with the mitochondrial outer membrane (Probable). Dissociates from the mitochondrial outer membrane following inhibition by N-acetyl-D-glucosamine, leading to relocation to the cytosol (PubMed:27374331).

# **Tissue Location**

Isoform 2: Erythrocyte specific (Ref.6). Isoform 3: Testis-specific (PubMed:10978502). Isoform 4: Testis-specific (PubMed:10978502). {ECO:0000269|PubMed:10978502, ECO:0000269|Ref.6}

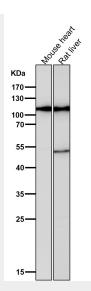

# Anti-Hexokinase 1 HK1 Rabbit Monoclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

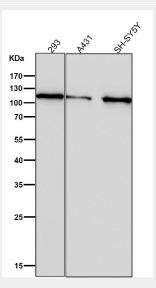

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

## Anti-Hexokinase 1 HK1 Rabbit Monoclonal Antibody - Images

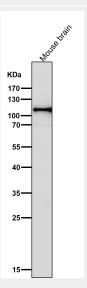

All lanes use the Antibody at 1:1W dilution for 1 hour at room temperature.

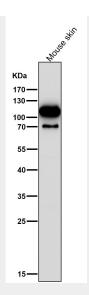

All lanes use the Antibody at 1:1W dilution for 1 hour at room temperature.

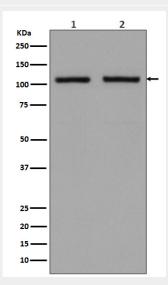

All lanes use the Antibody at 1:1W dilution for 1 hour at room temperature.

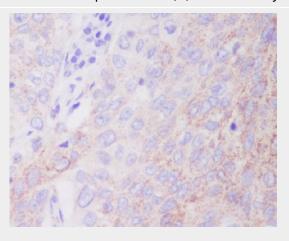

All lanes use the Antibody at 1:1W dilution for 1 hour at room temperature.

Western blot analysis of Hexokinase 1 expression in (1) MCF-7 cell lysate; (2) 293T cell lysate.

Immunohistochemical analysis of paraffin-embedded human lung carcinoma, using Hexokinase 1 Antibody.
