#### Anti-LI-Cadherin-17 CDH17-Rabbit Monoclonal Antibody - Protein Information

**Name** CDH17

#### Function

Cadherins are calcium-dependent cell adhesion proteins. They preferentially interact with

themselves in a homophilic manner in connecting cells; cadherins may thus contribute to the sorting of heterogeneous cell types. LI-cadherin may have a role in the morphological organization of liver and intestine. Involved in intestinal peptide transport.

#### Cellular Location

Cell membrane; Single-pass type I membrane protein

#### Tissue Location

Expressed in the gastrointestinal tract and pancreatic duct. Not detected in kidney, lung, liver, brain, adrenal gland and skin.
