Phospho-ADD1-S726 Antibody
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AE1003b

Specification

Phospho-ADD1-S726 Antibody - Product Information

Application	**WB, IHC, IF**
Primary Accession	P35611
Reactivity	**Human, Mouse, Rat**
Host	**Rabbit**
Clonality	**Polyclonal**
Concentration	**1mg/ml**
Isotype	**Rabbit IgG**
Calculated MW	**80955**

Phospho-ADD1-S726 Antibody - Additional Information

Gene ID 118

Other Names
Alpha-adducin, Erythrocyte adducin subunit alpha, ADD1, ADDA

Target/Specificity
The antibody was affinity-purified from rabbit antiserum using epitope-specific phosphopeptide column, and the antibody against non-phosphopeptide was removed using non-phosphopeptide column corresponding to the phosphorylation site.

Dilution
WB~~1:500~1:1000
IHC~~1:50~1:100
IF~~1:100~200

Format
affinity Purified IgG, in PBS, 0.02% sodium azide and 50% glycerol.

Storage
Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions
Phospho-ADD1-S726 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Phospho-ADD1-S726 Antibody - Protein Information

Name ADD1

Synonyms ADDA

Function
Membrane-cytoskeleton-associated protein that promotes the assembly of the spectrin-actin network. Binds to calmodulin.

Cellular Location
Cytoplasm, cytoskeleton. Cell membrane; Peripheral membrane protein; Cytoplasmic side

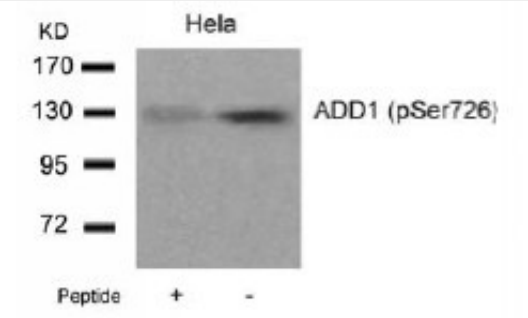
Tissue Location
Expressed in all tissues. Found in much higher levels in reticulocytes than the beta subunit

Phospho-ADD1-S726 Antibody - Protocols

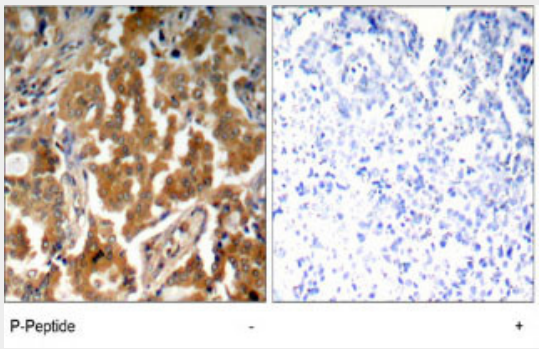
Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture

Phospho-ADD1-S726 Antibody - Images



Western blot analysis of extract from HT-29 cells untreated ortreated with Doxorubicin (1mM, 30min), using ADD1 Antibody (S726) (#AE1003a, Lane 1 and 2) and Phospho-ADD1-S726 Antibody (#AE1003b, Lane 3 and 4).



Immunohistochemical analysis of paraffin- embedded human lung carcinoma tissue using

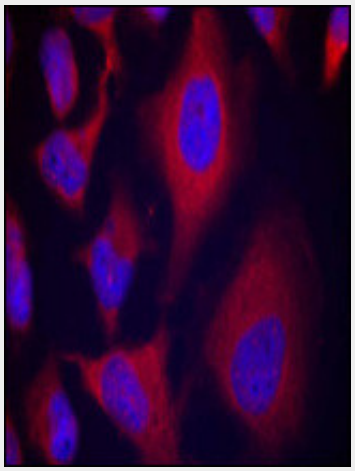
Phospho-ADD1-S726 Antibody (#AE1003b).



Immunofluorescence staining of methanol-fixed HeLa cells using Phospho-ADD1-S726 Antibody (#AE1003b, Red).

Phospho-ADD1-S726 Antibody - Background

Adducins are a family of cytoskeleton proteins encoded by three genes (alpha, beta, gamma). Adducin is a heterodimeric protein that consists of related subunits, which are produced from distinct genes but share a similar structure. Alpha- and beta-adducin include a protease-resistant N-terminal region and a protease-sensitive, hydrophilic C-terminal region. Alpha- and gamma-adducins are ubiquitously expressed. In contrast, beta-adducin is expressed at high levels in brain and hematopoietic tissues. Adducin binds with high affinity to Ca(2+)/calmodulin and is a substrate for protein kinases A and C. Alternative splicing results in multiple variants encoding distinct isoforms; however, not all variants have been fully described.
