

Goat Anti-Arylsulfatase A Antibody
Peptide-affinity purified goat antibody
Catalog # AF1113a

Specification

Goat Anti-Arylsulfatase A Antibody - Product Information

| | |
|-------------------|--|
| Application | WB |
| Primary Accession | P15289 |
| Other Accession | NP_000478 , 410 , 11883 (mouse) , 315222 (rat) |
| Reactivity | Mouse |
| Predicted | Human, Rat |
| Host | Goat |
| Clonality | Polyclonal |
| Concentration | 100ug/200ul |
| Isotype | IgG |
| Calculated MW | 53588 |

Goat Anti-Arylsulfatase A Antibody - Additional Information

Gene ID 410

Other Names

Arylsulfatase A, ASA, 3.1.6.8, Cerebroside-sulfatase, Arylsulfatase A component B, Arylsulfatase A component C, ARSA

Format

0.5 mg IgG/ml in Tris saline (20mM Tris pH7.3, 150mM NaCl), 0.02% sodium azide, with 0.5% bovine serum albumin

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Goat Anti-Arylsulfatase A Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Goat Anti-Arylsulfatase A Antibody - Protein Information

Name ARSA

Function

Hydrolyzes cerebroside sulfate.

Cellular Location

Endoplasmic reticulum. Lysosome

Goat Anti-Arylsulfatase A Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

Goat Anti-Arylsulfatase A Antibody - Images

AF1113a (0.5 µg/ml) staining of Mouse Testis lysate (35 µg protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.

Goat Anti-Arylsulfatase A Antibody - Background

The protein encoded by this gene hydrolyzes cerebroside sulfate to cerebroside and sulfate. Defects in this gene lead to metachromatic leukodystrophy (MLD), a progressive demyelination disease which results in a variety of neurological symptoms and ultimately death. Multiple alternatively spliced transcript variants, one of which encodes a distinct protein, have been described for this gene.
