

**Goat Anti-FSTL1 Antibody**  
Peptide-affinity purified goat antibody  
Catalog # AF1445a

**Specification**

---

**Goat Anti-FSTL1 Antibody - Product Information**

Application	WB
Primary Accession	<a href="#">Q12841</a>
Other Accession	<a href="#">NP_009016</a> , <a href="#">11167</a>
Reactivity	Human
Host	Goat
Clonality	Polyclonal
Concentration	0.5mg/ml
Isotype	IgG
Calculated MW	34986

**Goat Anti-FSTL1 Antibody - Additional Information**

**Gene ID** 11167

**Other Names**

Follistatin-related protein 1, Follistatin-like protein 1, FSTL1, FRP

**Format**

0.5 mg IgG/ml in Tris saline (20mM Tris pH7.3, 150mM NaCl), 0.02% sodium azide, with 0.5% bovine serum albumin

**Storage**

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

Goat Anti-FSTL1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

**Goat Anti-FSTL1 Antibody - Protein Information**

**Name** FSTL1

**Synonyms** FRP

**Function**

Secreted glycoprotein that is involved in various physiological processes, such as angiogenesis, regulation of the immune response, cell proliferation and differentiation (PubMed:<a href="http://www.uniprot.org/citations/22265692" target="\_blank">22265692</a>, PubMed:<a href="http://www.uniprot.org/citations/29212066" target="\_blank">29212066</a>). Plays a role in the development of the central nervous system, skeletal system, lungs, and ureter (By

similarity). Promotes endothelial cell survival, migration and differentiation into network structures in an AKT-dependent manner. Also promotes survival of cardiac myocytes (By similarity). Initiates various signaling cascades by activating different receptors on the cell surface such as DIP2A, TLR4 or BMP receptors (PubMed: [20054002](http://www.uniprot.org/citations/20054002), PubMed: [22265692](http://www.uniprot.org/citations/22265692)).

#### Cellular Location

Secreted.

#### Tissue Location

Overexpressed in synovial tissues from rheumatoid arthritis (PubMed:15638044).

### Goat Anti-FSTL1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

### Goat Anti-FSTL1 Antibody - Images

AF1445a (0.3 µg/ml) staining of Placenta lysate (35 µg protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.chemiluminescence.

### Goat Anti-FSTL1 Antibody - Background

This gene encodes a protein with similarity to follistatin, an activin-binding protein. It contains an FS module, a follistatin-like sequence containing 10 conserved cysteine residues. This gene product is thought to be an autoantigen associated with rheumatoid arthritis.
