

Goat Anti-Perilipin (C Terminus) Antibody
Peptide-affinity purified goat antibody
Catalog # AF1812a

Specification

Goat Anti-Perilipin (C Terminus) Antibody - Product Information

Application	WB, IF, IHC
Primary Accession	O60240
Other Accession	NP_002657 , 5346 , 25629 (rat)
Reactivity	Human
Predicted	Rat, Dog
Host	Goat
Clonality	Polyclonal
Concentration	100ug/200ul
Isotype	IgG
Calculated MW	55990

Goat Anti-Perilipin (C Terminus) Antibody - Additional Information

Gene ID 5346

Other Names

Perilipin-1, Lipid droplet-associated protein, PLIN1, PERI, PLIN

Format

0.5 mg IgG/ml in Tris saline (20mM Tris pH7.3, 150mM NaCl), 0.02% sodium azide, with 0.5% bovine serum albumin

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Goat Anti-Perilipin (C Terminus) Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Goat Anti-Perilipin (C Terminus) Antibody - Protein Information

Name PLIN1

Synonyms PERI, PLIN

Function

Modulator of adipocyte lipid metabolism. Coats lipid storage droplets to protect them from breakdown by hormone-sensitive lipase (HSL). Its absence may result in leanness. Plays a role in unilocular lipid droplet formation by activating CIDEC. Their interaction promotes lipid droplet enlargement and directional net neutral lipid transfer. May modulate lipolysis and triglyceride

levels.

Cellular Location

Endoplasmic reticulum. Lipid droplet. Note=Lipid droplet surface-associated.

Tissue Location

Detected in adipocytes from white adipose tissue (at protein level) (PubMed:27832861). Detected in visceral adipose tissue and mammary gland (PubMed:9521880)

Goat Anti-Perilipin (C Terminus) Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

Goat Anti-Perilipin (C Terminus) Antibody - Images

AF1812a (0.5 µg/ml) staining of Human Adipose lysate (35 µg protein in RIPA buffer). Detected by chemiluminescence.

AF1812a staining of differentiated 3T3-L1 adipocytes. Data kindly provided by Prof. J. Granneman, Detroit, USA. **This data is from a previous batch, not on sale.**

AF1812a (4 µg/ml) staining of paraffin embedded Human Colon. Steamed antigen retrieval with citrate buffer pH 6, AP-staining. **This data is from a previous batch, not on sale.**

Goat Anti-Perilipin (C Terminus) Antibody - Background

The protein encoded by this gene coats lipid storage droplets in adipocytes, thereby protecting them until they can be broken down by hormone-sensitive lipase. The encoded protein is the major cAMP-dependent protein kinase substrate in adipocytes and, when unphosphorylated, may play a role in the inhibition of lipolysis. Alternatively spliced transcript variants varying in the 5' UTR, but encoding the same protein, have been found for this gene.
