Goat Anti-TIM50 Antibody - Protein Information

Name TIMM50

Synonyms TIM50

Function

Essential component of the TIM23 complex, a complex that mediates the translocation of transit peptide-containing proteins across the mitochondrial inner membrane. Has some phosphatase activity in vitro; however such activity may not be relevant in vivo.

Cellular Location

Mitochondrion inner membrane; Single-pass membrane protein

Tissue Location

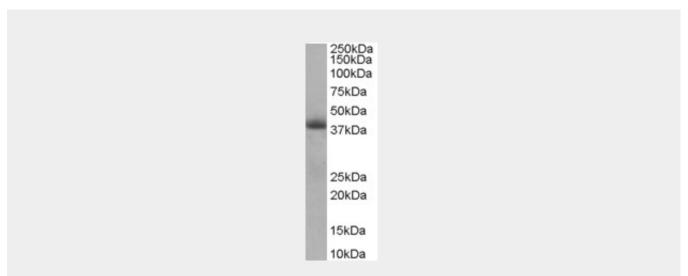

Widely expressed. Expressed at higher level in brain, kidney and liver (at protein level)
