

Alpha-synuclein Antibody (internal region)

Peptide-affinity purified goat antibody Catalog # AF3845a

### **Specification**

# Alpha-synuclein Antibody (internal region) - Product Information

Application Primary Accession Other Accession

Reactivity Predicted Host Clonality Concentration Isotype Calculated MW WB <u>P37840</u> NP\_009292.1, NP\_000336.1, 6622, 20617 (mouse), 29219 (rat) Human, Mouse Rat, Pig, Dog Goat Polyclonal 0.5 mg/ml IgG 14460

## Alpha-synuclein Antibody (internal region) - Additional Information

Gene ID 6622

**Other Names** 

Alpha-synuclein, Non-A beta component of AD amyloid, Non-A4 component of amyloid precursor, NACP, SNCA, NACP, PARK1

#### Format

0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions** 

Alpha-synuclein Antibody (internal region) is for research use only and not for use in diagnostic or therapeutic procedures.

### Alpha-synuclein Antibody (internal region) - Protein Information

Name SNCA

Synonyms NACP, PARK1

Function

Neuronal protein that plays several roles in synaptic activity such as regulation of synaptic vesicle trafficking and subsequent neurotransmitter release (PubMed:<a href="http://www.uniprot.org/citations/20798282" target="\_blank">20798282</a>, PubMed:<a

href="http://www.uniprot.org/citations/26442590" target=" blank">26442590</a>, PubMed:<a href="http://www.uniprot.org/citations/28288128" target=" blank">28288128</a>, PubMed:<a href="http://www.uniprot.org/citations/30404828" target="blank">30404828</a>). Participates as a monomer in synaptic vesicle exocytosis by enhancing vesicle priming, fusion and dilation of exocytotic fusion pores (PubMed:<a href="http://www.uniprot.org/citations/28288128" target=" blank">28288128</a>, PubMed:<a href="http://www.uniprot.org/citations/30404828" target=" blank">30404828</a>). Mechanistically, acts by increasing local Ca(2+) release from microdomains which is essential for the enhancement of ATP-induced exocytosis (PubMed:<a href="http://www.uniprot.org/citations/30404828" target=" blank">30404828</a>). Acts also as a molecular chaperone in its multimeric membrane-bound state, assisting in the folding of synaptic fusion components called SNAREs (Soluble NSF Attachment Protein REceptors) at presynaptic plasma membrane in conjunction with cysteine string protein-alpha/DNAJC5 (PubMed:<a href="http://www.uniprot.org/citations/20798282" target=" blank">20798282</a>). This chaperone activity is important to sustain normal SNARE-complex assembly during aging (PubMed:<a href="http://www.uniprot.org/citations/20798282" target=" blank">20798282</a>). Also plays a role in the regulation of the dopamine neurotransmission by associating with the dopamine transporter (DAT1) and thereby modulating its activity (PubMed:<a href="http://www.uniprot.org/citations/26442590" target=" blank">26442590</a>).

#### **Cellular Location**

Cytoplasm. Membrane. Nucleus. Synapse Secreted. Cell projection, axon {ECO:0000250|UniProtKB:O55042}. Note=Membrane-bound in dopaminergic neurons (PubMed:15282274). Expressed and colocalized with SEPTIN4 in dopaminergic axon terminals, especially at the varicosities (By similarity). {ECO:0000250|UniProtKB:O55042, ECO:0000269|PubMed:15282274}

#### **Tissue Location**

Highly expressed in presynaptic terminals in the central nervous system. Expressed principally in brain

# Alpha-synuclein Antibody (internal region) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>

Alpha-synuclein Antibody (internal region) - Images

AF3846a (0.1  $\mu$ g/ml) staining of fetal Mouse Brain lysate (35  $\mu$ g protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.

# Alpha-synuclein Antibody (internal region) - Background

This antibody is expected to recognize both reported isoforms (NP\_009292.1; NP\_000336.1). Reported variants represent identical protein: NP\_000336.1, NP\_001139527.1, NP\_001139526.1

## Alpha-synuclein Antibody (internal region) - References

Mimicking phosphorylation at serine 87 inhibits the aggregation of human ?-synuclein and protects against its toxicity in a rat model of Parkinson's disease. Oueslati A, Paleologou KE, Schneider BL, Aebischer P, Lashuel HA. J Neurosci. 2012 Feb 1;32(5):1536-44. PMID: 22302797
