

Goat anti-VE-cadherin Antibody
Peptide-affinity purified goat antibody
Catalog # AF4510a

Specification

Goat anti-VE-cadherin Antibody - Product Information

Application	IF, FC, Pep-ELISA
Primary Accession	P33151
Other Accession	NP_001786.2
Reactivity	Human, Pig, Bovine
Host	Goat
Clonality	Polyclonal
Calculated MW	87528

Goat anti-VE-cadherin Antibody - Additional Information

Gene ID 1003

Other Names

CDH5; cadherin 5, type 2 (vascular endothelium); 7B4; CD144; 7B4 antigen; VE-cadherin; cadherin 5, type 2, VE-cadherin (vascular epithelium); cadherin-5; cd144 antigen; endothelial-specific cadherin; vascular endothelial cadherin

Format

Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin. Aliquot and store at -20°C. Minimize freezing and thawing.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

Goat anti-VE-cadherin Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Goat anti-VE-cadherin Antibody - Protein Information

Name CDH5 ([HGNC:1764](#))

Function

Cadherins are calcium-dependent cell adhesion proteins (By similarity). They preferentially interact with themselves in a homophilic manner in connecting cells; cadherins may thus contribute to the sorting of heterogeneous cell types (PubMed:[21269602](http://www.uniprot.org/citations/21269602)). This cadherin may play an important role in endothelial cell biology through control of the cohesion and organization of the intercellular junctions (By similarity). It associates with alpha-catenin forming a link to the cytoskeleton (PubMed:[10861224](http://www.uniprot.org/citations/10861224))

target="_blank">10861224). Acts in concert with KRIT1 and PALS1 to establish and maintain correct endothelial cell polarity and vascular lumen (By similarity). These effects are mediated by recruitment and activation of the Par polarity complex and RAP1B (PubMed:20332120). Required for activation of PRKCZ and for the localization of phosphorylated PRKCZ, PARD3, TIAM1 and RAP1B to the cell junction (PubMed:20332120).

Cellular Location

Cell junction, adherens junction. Cell membrane; Single-pass type I membrane protein
Note=Found at cell-cell boundaries and probably at cell-matrix boundaries. KRIT1 and CDH5 reciprocally regulate their localization to endothelial cell-cell junctions.

Tissue Location

Endothelial tissues and brain.

Goat anti-VE-cadherin Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
