

Anti-S100A4 Antibody

Mouse Monoclonal Antibody Catalog # AH13493

# Specification

# Anti-S100A4 Antibody - Product Information

Application Primary Accession Other Accession Reactivity Host Clonality Isotype Calculated MW

,1,14,3,4, <u>P26447</u> <u>654444</u> Human, Mouse Mouse Monoclonal Mouse / IgG1, kappa 11729

# Anti-S100A4 Antibody - Additional Information

Gene ID 6275

#### **Other Names**

S100A4; S100 calcium-binding protein A4; Calvasculin; CAPL; Fibroblast specific protein 1 (FSP1); Leukemia multidrug resistance associated protein; Malignant transformation suppression 1 (MTS1); Metastasin; Placental calcium-binding protein

#### Format

200ug/ml of Ab purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.

Storage

Store at 2 to 8°C.Antibody is stable for 24 months.

#### Precautions

Anti-S100A4 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

### Anti-S100A4 Antibody - Protein Information

### Name S100A4

Synonyms CAPL, MTS1

### Function

Calcium-binding protein that plays a role in various cellular processes including motility, angiogenesis, cell differentiation, apoptosis, and autophagy (PubMed:<a href="http://www.uniprot.org/citations/16707441" target="\_blank">16707441</a>, PubMed:<a href="http://www.uniprot.org/citations/23752197" target="\_blank">23752197</a>, PubMed:<a href="http://www.uniprot.org/citations/23752197" target="\_blank">30713770</a>, PubMed:<a href="http://www.uniprot.org/citations/30713770" target="\_blank">30713770</a>, PubMed:<a href="http://www.uniprot.org/citations/30713770" target="\_blank">30713770</a>, PubMed:<a

IIA/MYH9 (PubMed: <a href="http://www.uniprot.org/citations/16707441""

target="\_blank">16707441</a>). Mechanistically, promotes filament depolymerization and increases the amount of soluble myosin-IIA, resulting in the formation of stable protrusions facilitating chemotaxis (By similarity). Modulates also the pro-apoptotic function of TP53 by binding to its C-terminal transactivation domain within the nucleus and reducing its protein levels (PubMed:<a href="http://www.uniprot.org/citations/23752197" target="\_blank">23752197</a>). Within the extracellular space, stimulates cytokine production including granulocyte colonystimulating factor and CCL24 from T-lymphocytes (By similarity). In addition, stimulates T-lymphocyte chemotaxis by acting as a chemoattractant complex with PGLYRP1 that promotes lymphocyte migration via CCR5 and CXCR3 receptors (PubMed:<a href="http://www.uniprot.org/citations/26654597" target="\_blank">26654597</a>, PubMed:<a href="http://www.uniprot.org/citations/26654597" target="\_blank">26654597</a>, PubMed:<a

Cellular Location Secreted. Nucleus Cytoplasm {ECO:0000250|UniProtKB:P07091}

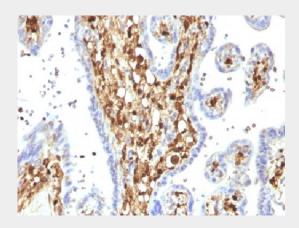

**Tissue Location** Ubiquitously expressed.

# Anti-S100A4 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

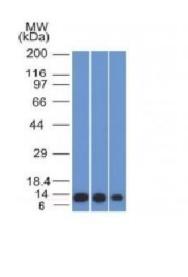

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- <u>Flow Cytomety</u>
- <u>Cell Culture</u>

## Anti-S100A4 Antibody - Images

Formalin--paraffin human Placenta stained with S100A4 Monoclonal Antibody (S100A4/1482).

Western Blot of HeLa, A549 and A375 Cell Lysate using S100A4 Monoclonal Antibody (S100A4/1482).

# Anti-S100A4 Antibody - Background

S100A4 belongs to the S100 super-family of proteins containing 2 EF-hand calcium-binding domains. S100 genes include at least 25 members, including S100A1-S100A18, trichohyalin, filaggrin, repetin, S100P, and S100Z. S100A4 exerts its function via direct interaction with a number of proteins including P53, P63, non-muscle myosin IIA,  $\alpha$ 6 $\beta$ 4 integrin, and liprin b1. S100A4 is overexpressed in highly metastatic cancers, which makes it useful as a marker of tumor progression.
