Precautions

RCN3 Antibody - C-terminal region is for research use only and not for use in diagnostic or therapeutic procedures.

RCN3 Antibody - C-terminal region - Protein Information**Name** RCN3 ([HGNC:21145](#))**Function**Probable molecular chaperone assisting protein biosynthesis and transport in the endoplasmic reticulum (PubMed: <http://www.uniprot.org/citations/16433634> target="_blank">16433634, PubMed: <http://www.uniprot.org/citations/28939891> target="_blank">28939891). Required for the proper biosynthesis and transport of pulmonary surfactant-associated protein A/SP-A, pulmonary surfactant-associated protein D/SP-D and the lipid transporter ABCA3 (By similarity). By regulating both the proper expression and the degradation through the endoplasmic reticulum-associated protein degradation pathway of these

proteins plays a crucial role in pulmonary surfactant homeostasis (By similarity). Has an anti-fibrotic activity by negatively regulating the secretion of type I and type III collagens (PubMed:28939891). This calcium-binding protein also transiently associates with immature PCSK6 and regulates its secretion (PubMed:16433634).
