

GFAP Antibody (C-Terminus)
Goat Polyclonal Antibody
Catalog # ALS12163**Specification**

GFAP Antibody (C-Terminus) - Product Information

Application	IHC
Primary Accession	P14136
Reactivity	Human, Rat, Rabbit, Monkey, Horse, Bovine
Host	Goat
Clonality	Polyclonal
Calculated MW	50kDa KDa

GFAP Antibody (C-Terminus) - Additional Information**Gene ID** 2670**Other Names**

Glial fibrillary acidic protein, GFAP, GFAP

Target/Specificity

Human GFAP.

Reconstitution & Storage

Store at -20°C. Minimize freezing and thawing.

Precautions

GFAP Antibody (C-Terminus) is for research use only and not for use in diagnostic or therapeutic procedures.

GFAP Antibody (C-Terminus) - Protein Information**Name** GFAP**Function**

GFAP, a class-III intermediate filament, is a cell-specific marker that, during the development of the central nervous system, distinguishes astrocytes from other glial cells.

Cellular Location

Cytoplasm. Note=Associated with intermediate filaments

Tissue Location

Expressed in cells lacking fibronectin.

GFAP Antibody (C-Terminus) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

GFAP Antibody (C-Terminus) - Images

Anti-GFAP antibody IHC of human brain, cortex, astrocytes.

GFAP Antibody (C-Terminus) - Background

GFAP, a class-III intermediate filament, is a cell-specific marker that, during the development of the central nervous system, distinguishes astrocytes from other glial cells.
