

### **GH / Growth Hormone Antibody**

Rabbit Polyclonal Antibody Catalog # ALS12803

## **Specification**

### **GH / Growth Hormone Antibody - Product Information**

Application IHC
Primary Accession P01241
Reactivity Human
Host Rabbit
Clonality Polyclonal
Calculated MW 25kDa KDa

## **GH / Growth Hormone Antibody - Additional Information**

#### **Gene ID 2688**

#### **Other Names**

Somatotropin, Growth hormone, GH, GH-N, Growth hormone 1, Pituitary growth hormone, GH1

### **Reconstitution & Storage**

Store at 2°C to 8°C degrees. Do not freeze.

#### **Precautions**

GH / Growth Hormone Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

# **GH / Growth Hormone Antibody - Protein Information**

#### Name GH1

#### **Function**

Plays an important role in growth control. Its major role in stimulating body growth is to stimulate the liver and other tissues to secrete IGF-1. It stimulates both the differentiation and proliferation of myoblasts. It also stimulates amino acid uptake and protein synthesis in muscle and other tissues.

### **Cellular Location**

Secreted

#### **Volume**

50 ul

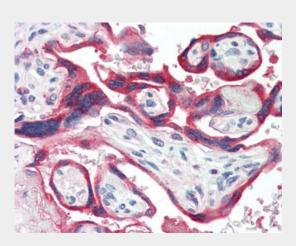

## **GH / Growth Hormone Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- <u>Immunoprecipitation</u>
- Flow Cytomety
- Cell Culture

### **GH / Growth Hormone Antibody - Images**

Anti-Growth Hormone antibody IHC of human placenta.

## **GH / Growth Hormone Antibody - Background**

Plays an important role in growth control. Its major role in stimulating body growth is to stimulate the liver and other tissues to secrete IGF-1. It stimulates both the differentiation and proliferation of myoblasts. It also stimulates amino acid uptake and protein synthesis in muscle and other tissues.
