

MMP9 / Gelatinase B Antibody (Internal)
Rabbit Polyclonal Antibody
Catalog # ALS12805**Specification**

MMP9 / Gelatinase B Antibody (Internal) - Product Information

Application	IHC
Primary Accession	P14780
Reactivity	Human, Guinea Pig
Host	Rabbit
Clonality	Polyclonal
Calculated MW	78kDa KDa

MMP9 / Gelatinase B Antibody (Internal) - Additional Information**Gene ID** 4318**Other Names**

Matrix metalloproteinase-9, MMP-9, 3.4.24.35, 92 kDa gelatinase, 92 kDa type IV collagenase, Gelatinase B, GELB, 67 kDa matrix metalloproteinase-9, 82 kDa matrix metalloproteinase-9, MMP9, CLG4B

Target/Specificity

Recognizes pro (latent) and activated forms of human MMP-9 at 92kD and ~86kD, respectively. Shows no cross-reaction with pro and active forms of other MMPs.

Reconstitution & Storage

Long term: Add glycerol (40-50%) -20°C; Short term: +4°C

Precautions

MMP9 / Gelatinase B Antibody (Internal) is for research use only and not for use in diagnostic or therapeutic procedures.

MMP9 / Gelatinase B Antibody (Internal) - Protein Information**Name** MMP9**Synonyms** CLG4B**Function**

Matrix metalloproteinase that plays an essential role in local proteolysis of the extracellular matrix and in leukocyte migration (PubMed: [12879005](http://www.uniprot.org/citations/12879005)), PubMed: [1480034](http://www.uniprot.org/citations/1480034)), PubMed: [2551898](http://www.uniprot.org/citations/2551898)). Could play a role in bone osteoclastic resorption (By similarity). Cleaves KiSS1 at a Gly-|-Leu bond (PubMed: [12879005](http://www.uniprot.org/citations/12879005)). Cleaves NINJ1 to generate the Secreted ninjurin-1 form (PubMed: [32883094](http://www.uniprot.org/citations/32883094)).

Cleaves type IV and type V collagen into large C-terminal three quarter fragments and shorter N-terminal one quarter fragments (PubMed:1480034). Degrades fibronectin but not laminin or Pz-peptide.

Cellular Location

Secreted, extracellular space, extracellular matrix

Tissue Location

Detected in neutrophils (at protein level) (PubMed:7683678). Produced by normal alveolar macrophages and granulocytes.

Volume

250 µl

MMP9 / Gelatinase B Antibody (Internal) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)

MMP9 / Gelatinase B Antibody (Internal) - Images

Anti-MMP-9 antibody IHC of human spleen.

MMP9 / Gelatinase B Antibody (Internal) - Background

May play an essential role in local proteolysis of the extracellular matrix and in leukocyte migration. Could play a role in bone osteoclastic resorption. Cleaves KiSS1 at a Gly-|-Leu bond. Cleaves type IV and type V collagen into large C-terminal three quarter fragments and shorter N-terminal one quarter fragments. Degrades fibronectin but not laminin or Pz-peptide.
