

**HMGIY / HMGA1 Antibody**  
**Goat Polyclonal Antibody**  
**Catalog # ALS13110****Specification**

---

**HMGIY / HMGA1 Antibody - Product Information**

Application	<b>IHC, WB</b>
Primary Accession	<a href="#">P17096</a>
Reactivity	<b>Human, Mouse, Rat, Rabbit, Hamster, Monkey, Pig, Horse, Dog</b>
Host	<b>Goat</b>
Clonality	<b>Polyclonal</b>
Calculated MW	<b>12kDa KDa</b>

**HMGIY / HMGA1 Antibody - Additional Information****Gene ID** 3159**Other Names**

High mobility group protein HMG-I/HMG-Y, HMG-I(Y), High mobility group AT-hook protein 1, High mobility group protein A1, High mobility group protein R, HMGA1, HMGIY

**Target/Specificity**

Human HMGA1. This antibody is expected to recognize reported isoforms a (NP\_665906.1, NP\_665908.1, NP\_665911.1) and b (NP\_002122.1, NP\_665910.1, NP\_665912.1). This antibody is not expected to cross-react with HMGA2.

**Reconstitution & Storage**

Store at -20°C. Minimize freezing and thawing.

**Precautions**

HMGIY / HMGA1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

**HMGIY / HMGA1 Antibody - Protein Information****Name** HMGA1**Synonyms** HMGIY**Function**

HMG-I/Y bind preferentially to the minor groove of A+T rich regions in double-stranded DNA. It is suggested that these proteins could function in nucleosome phasing and in the 3'-end processing of mRNA transcripts. They are also involved in the transcription regulation of genes containing, or in close proximity to A+T-rich regions.

**Cellular Location**

Nucleus. Chromosome.

## HMGIY / HMGA1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
