

GH / Growth Hormone Antibody
Rabbit Polyclonal Antibody
Catalog # ALS13235**Specification**

GH / Growth Hormone Antibody - Product Information

Application	WB, IHC
Primary Accession	P01241
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Calculated MW	25kDa KDa

GH / Growth Hormone Antibody - Additional Information**Gene ID** 2688**Other Names**

Somatotropin, Growth hormone, GH, GH-N, Growth hormone 1, Pituitary growth hormone, GH1

Target/Specificity

Human GH1. Predicted cross-reactivity based on amino acid sequence homology: monkey (81%). Immunogen shares only 60% identity to mouse.

Reconstitution & Storage

Aliquot and store at -20°C. Minimize freezing and thawing.

Precautions

GH / Growth Hormone Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

GH / Growth Hormone Antibody - Protein Information**Name** GH1**Function**

Plays an important role in growth control. Its major role in stimulating body growth is to stimulate the liver and other tissues to secrete IGF-1. It stimulates both the differentiation and proliferation of myoblasts. It also stimulates amino acid uptake and protein synthesis in muscle and other tissues.

Cellular Location

Secreted

Volume

50 µl

GH / Growth Hormone Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

GH / Growth Hormone Antibody - Images

Sample(30 ug whole cell lysate). A:293T. 12% SDS PAGE. GH1 antibody diluted at 1:1000

Anti-Growth Hormone antibody IHC of human placenta.

GH / Growth Hormone Antibody - Background

Plays an important role in growth control. Its major role in stimulating body growth is to stimulate the liver and other tissues to secrete IGF-1. It stimulates both the differentiation and proliferation of myoblasts. It also stimulates amino acid uptake and protein synthesis in muscle and other tissues.
