

Anti-GPR3 Antibody (N-Terminus)
Rabbit Anti Human Polyclonal Antibody
Catalog # ALS17538

Specification

Anti-GPR3 Antibody (N-Terminus) - Product Information

Application	IHC-P, E
Primary Accession	P46089
Predicted	Human, Monkey
Host	Rabbit
Clonality	Polyclonal
Calculated MW	35010

Anti-GPR3 Antibody (N-Terminus) - Additional Information

Gene ID 2827

Alias Symbol GPR3

Other Names

GPR3, ACCA, ACCA orphan receptor, G protein-coupled receptor 3, GPCR3, Hacca, G-protein coupled receptor 3

Target/Specificity

Human GPR3. BLAST analysis of the peptide immunogen showed no homology with other human proteins, except CASKIN2 (53%), INPPL1 (47%).

Reconstitution & Storage

Immunoaffinity purified

Precautions

Anti-GPR3 Antibody (N-Terminus) is for research use only and not for use in diagnostic or therapeutic procedures.

Anti-GPR3 Antibody (N-Terminus) - Protein Information

Name GPR3

Synonyms ACCA

Function

Constitutively active G-protein coupled receptor that maintains high 3'-5'-cyclic adenosine monophosphate (cAMP) levels that plays a role in several processes including meiotic arrest in oocytes or neuronal development via activation of numerous intracellular signaling pathways. Acts as an essential activator of thermogenic adipocytes and drives thermogenesis via its intrinsic G(s)-coupling activity without the requirement of a ligand (PubMed:34048700). Has a potential role in modulating a number of brain functions, including behavioral responses to stress (By similarity), amyloid-beta peptide generation in neurons (By similarity). Stimulates neurite

outgrowth in cerebellar granular neurons modulated via PKA, ERK, and most strongly PI3K-mediated signaling pathways (By similarity).

Cellular Location

Cell membrane; Multi-pass membrane protein.

Tissue Location

Expressed predominantly in the central nervous system, and at low levels in the lung, kidney, testis, ovary and eye Highly expressed in regions of the brain implicated in the Alzheimer disease

Anti-GPR3 Antibody (N-Terminus) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
