

**RNF4 Antibody**  
**Purified Mouse Monoclonal Antibody (Mab)**  
**Catalog # AM8684b**

**Specification**

---

**RNF4 Antibody - Product Information**

Application	WB,E
Primary Accession	<a href="#">P78317</a>
Reactivity	Human
Predicted	Human
Host	Mouse
Clonality	monoclonal
Isotype	IgG1,k

**RNF4 Antibody - Additional Information**

**Gene ID** 6047

**Other Names**

E3 ubiquitin-protein ligase RNF4, 6.3.2.-, RING finger protein 4, Small nuclear ring finger protein, Protein SNURF, RNF4, SNURF

**Target/Specificity**

This RNF4 antibody is generated from a mouse immunized with a recombinant protein from the human region of human RNF4.

**Dilution**

WB~~1:2000

**Format**

Purified monoclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein G column, followed by dialysis against PBS.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

RNF4 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

**RNF4 Antibody - Protein Information**

**Name** RNF4 {ECO:0000303|PubMed:15815621, ECO:0000312|HGNC:HGNC:10067}

**Function** E3 ubiquitin-protein ligase which binds polysumoylated chains covalently attached to proteins and mediates 'Lys-6'-, 'Lys-11'-, 'Lys- 48'- and 'Lys-63'-linked polyubiquitination of those substrates and their subsequent targeting to the proteasome for degradation (PubMed:[18408734](#), PubMed:[19307308](#), PubMed:[35013556](#)). Regulates the degradation of several proteins including

PML and the transcriptional activator PEA3 (PubMed:[18408734](#), PubMed:[19307308](#), PubMed:[20943951](#)). Involved in chromosome alignment and spindle assembly, it regulates the kinetochore CENPH-CENPI-CENPK complex by targeting polysumoylated CENPI to proteasomal degradation (PubMed:[20212317](#)). Regulates the cellular responses to hypoxia and heat shock through degradation of respectively EPAS1 and PARP1 (PubMed:[19779455](#), PubMed:[20026589](#)). Alternatively, it may also bind DNA/nucleosomes and have a more direct role in the regulation of transcription for instance enhancing basal transcription and steroid receptor-mediated transcriptional activation (PubMed:[12885770](#)). Catalyzes ubiquitination of sumoylated PARP1 in response to PARP1 trapping to chromatin, leading to PARP1 removal from chromatin by VCP/p97 (PubMed:[35013556](#)).

#### Cellular Location

Cytoplasm. Nucleus. Nucleus, PML body

#### Tissue Location

Widely expressed at low levels in many tissues; highly expressed in testis.

### RNF4 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
