

RAB27B Antibody
Purified Mouse Monoclonal Antibody (Mab)
Catalog # AM8688b

Specification

RAB27B Antibody - Product Information

Application	WB, FC,E
Primary Accession	O00194
Reactivity	Human, Mouse
Host	Mouse
Clonality	monoclonal
Isotype	IgG1,k
Calculated MW	24608

RAB27B Antibody - Additional Information

Gene ID 5874

Other Names

Ras-related protein Rab-27B, C25KG, RAB27B

Target/Specificity

This RAB27B antibody is generated from a mouse immunized with a recombinant protein of human RAB27B.

Dilution

WB~~1:2000

FC~~1:25

Format

Purified monoclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein G column, followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

RAB27B Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

RAB27B Antibody - Protein Information

Name RAB27B

Function Small GTPase which cycles between active GTP-bound and inactive GDP-bound states. In its active state, binds to a variety of effector proteins to regulate homeostasis of late endocytic pathway, including endosomal positioning, maturation and secretion (PubMed:[30771381](#)). Plays a role in NTRK2/TRKB axonal anterograde transport by facilitating the association of NTRK2/TRKB

with KLC1 (PubMed:[21775604](#)). May be involved in targeting uroplakins to urothelial apical membranes (By similarity).

Cellular Location

Membrane; Lipid-anchor. Late endosome

Tissue Location

Expressed primarily in testis.

RAB27B Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

RAB27B Antibody - Images

All lanes : Anti-RAB27B Antibody at 1:2000 dilution Lane 1: DU145 whole cell lysate Lane 2: mouse stomach lysate Lysates/proteins at 20 µg per lane. Secondary Goat Anti-mouse IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size : 25 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

Overlay histogram showing A431 cells stained with AM8688b(green line). The cells were fixed with 2% paraformaldehyde (10 min) and then permeabilized with 90% methanol for 10 min. The cells were then incubated in 2% bovine serum albumin to block non-specific protein-protein interactions followed by the antibody (AM8688b, 1:25 dilution) for 60 min at 37°C. The secondary antibody used was Goat-Anti-Mouse IgG, DyLight® 488 Conjugated Highly Cross-Adsorbed(OJ192088) at 1/200 dilution for 40 min at 37°C. Isotype control antibody (blue line) was mouse IgG1 (1µg/1x10⁶ cells) used under the same conditions. Acquisition of >10, 000 events was performed.

RAB27B Antibody - Background

May be involved in targeting uroplakins to urothelial apical membranes.
