

PSD-95 Antibody
Affinity purified rabbit polyclonal antibody
Catalog # AN1092

Specification

PSD-95 Antibody - Product Information

Application	WB
Primary Accession	P31016
Reactivity	Rat
Predicted	Bovine, Human, Mouse, Monkey, Zebrafish
Host	Rabbit
Clonality	polyclonal
Calculated MW	95 KDa

PSD-95 Antibody - Additional Information

Gene ID	29495
Gene Name	DLG4

Other Names

Disks large homolog 4, Postsynaptic density protein 95, PSD-95, Synapse-associated protein 90, SAP-90, SAP90,Dlg4, Dlgh4, Psd95

Target/Specificity

Synthetic peptide corresponding to amino acid residues from the N-terminal region conjugated to KLH.

Dilution

WB~~ 1:1000

Format

Prepared from rabbit serum by affinity purification via chromatography on an affinity column made with the N-terminal peptide used as antigen.

Antibody Specificity

Specific for ~95k PSD-95 protein

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

PSD-95 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

Shipping

Blue Ice

PSD-95 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

PSD-95 Antibody - Background

PSD-95 is a very prominent component of the postsynaptic densities of synapses. It contains three PDZ domains which play key roles in its interactions with other proteins in the synapse. It has been proposed that these PDZ domains organize glutamate receptors and their associated signaling proteins and determine the size and strength of synapses (Kim and Sheng, 2004). Recent work suggests that interaction of the NMDAR with PSD-95 via these PDZ domains can be regulated by phosphorylation (Chung et al., 2004).
