

ETS1 Antibody
Mouse Monoclonal Antibody to ETS1
Catalog # AO1354b**Specification**

ETS1 Antibody - Product Information

Application	WB, IHC
Primary Accession	P14921
Reactivity	Human
Host	Mouse
Clonality	Monoclonal
Isotype	Mouse IgG1
Calculated MW	50408

Description

The ETS1 is a transcription factor known to regulate expression of a number of genes involved in extracellular matrix remodeling. ETS1 is absent from normal gastric epithelium but is expressed in approximately 60% of gastric carcinomas and oral squamous cell carcinomas with a significant correlation to the tumor stage.

Immunogen

Purified recombinant fragment of human ETS1 expressed in E. Coli.

ETS1 Antibody - Additional Information

Gene ID 2113

Other Names

Protein C-ets-1, p54, ETS1, EWSR2

Target/Specificity

Purified recombinant fragment of human ETS1 expressed in E. Coli.

Dilution

WB~~1:500~~2000

IHC~~1:200~~1000

Format

Ascitic fluid containing 0.03% sodium azide.

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

ETS1 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

ETS1 Antibody - Protein Information

Name ETS1**Synonyms** EWSR2**Function**

Transcription factor (PubMed:[10698492](http://www.uniprot.org/citations/10698492), PubMed:[11909962](http://www.uniprot.org/citations/11909962)). Directly controls the expression of cytokine and chemokine genes in a wide variety of different cellular contexts (PubMed:[20378371](http://www.uniprot.org/citations/20378371)). May control the differentiation, survival and proliferation of lymphoid cells (PubMed:[20378371](http://www.uniprot.org/citations/20378371)). May also regulate angiogenesis through regulation of expression of genes controlling endothelial cell migration and invasion (PubMed:[15247905](http://www.uniprot.org/citations/15247905), PubMed:[15592518](http://www.uniprot.org/citations/15592518)).

Cellular Location

Nucleus. Cytoplasm Note=Delocalizes from nucleus to cytoplasm when coexpressed with isoform Ets-1 p27.

Tissue Location

Highly expressed within lymphoid cells. Isoforms c- ETS-1A and Ets-1 p27 are both detected in all fetal tissues tested, but vary with tissue type in adult tissues. None is detected in brain or kidney.

ETS1 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
