

BCL-2 Antibody
Purified Mouse Monoclonal Antibody
Catalog # AO1430a**Specification**

BCL-2 Antibody - Product Information

Application	FC, IF, IHC
Primary Accession	P10415
Reactivity	Human, Mouse
Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Calculated MW	26kDa KDa

Description

This gene encodes an integral outer mitochondrial membrane protein that blocks the apoptotic death of some cells such as lymphocytes. Constitutive expression of BCL2, such as in the case of translocation of BCL2 to Ig heavy chain locus, is thought to be the cause of follicular lymphoma. Tissue specificity: Expressed in a variety of tissues.

Immunogen

Synthetic peptide corresponding to residues surrounding BCL-2, conjugated to KLH.

Formulation

Ascitic fluid containing 0.03% sodium azide.

BCL-2 Antibody - Additional Information

Gene ID 596

Other Names

Apoptosis regulator Bcl-2, BCL2

Dilution

FC~~1/200 - 1/400

IF~~1/200 - 1/1000

IHC~~1/500 - 1/2000

Storage

Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

BCL-2 Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

BCL-2 Antibody - Protein Information

Name BCL2

Function

Suppresses apoptosis in a variety of cell systems including factor-dependent lymphohematopoietic and neural cells (PubMed:1508712, PubMed:8183370). Regulates cell death by controlling the mitochondrial membrane permeability (PubMed:11368354). Appears to function in a feedback loop system with caspases (PubMed:11368354). Inhibits caspase activity either by preventing the release of cytochrome c from the mitochondria and/or by binding to the apoptosis-activating factor (APAF-1) (PubMed:11368354). Also acts as an inhibitor of autophagy: interacts with BECN1 and AMBRA1 during non-starvation conditions and inhibits their autophagy function (PubMed:18570871, PubMed:20889974, PubMed:21358617). May attenuate inflammation by impairing NLRP1-inflammasome activation, hence CASP1 activation and IL1B release (PubMed:17418785).

Cellular Location

Mitochondrion outer membrane; Single-pass membrane protein. Nucleus membrane; Single-pass membrane protein. Endoplasmic reticulum membrane; Single-pass membrane protein. Cytoplasm {ECO:0000250|UniProtKB:P10417}

Tissue Location

Expressed in a variety of tissues.

BCL-2 Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
