

CD191

Purified Mouse Monoclonal Antibody Catalog # AO2724a

Specification

CD191 - Product Information

Application E, WB **Primary Accession** P32246 Reactivity Human Host Mouse Clonality **Monoclonal** Isotype Mouse IgG1 Calculated MW 41.2kDa KDa Immunogen Purified recombinant fragment of human CD191 (AA: extra mix) expressed in E. Coli.

Formulation Purified antibody in PBS with 0.05% sodium azide

CD191 - Additional Information

Gene ID 1230

Other Names CCR1; CKR1; CKR-1; HM145; CMKBR1; MIP1aR; SCYAR1

Dilution E~~ 1/10000 WB~~ 1/500 - 1/2000

Storage Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions CD191 is for research use only and not for use in diagnostic or therapeutic procedures.

CD191 - Protein Information

Name CCR1

Synonyms CMKBR1, CMKR1, SCYAR1

Function

Chemokine receptor that plays a crucial role in regulating immune cell migration, inflammation, and immune responses (PubMed:14991608). Contributes to the inflammatory response by recruiting immune

cells, such as monocytes, macrophages, T-cells, and dendritic cells, to sites of inflammation for the clearance of pathogens and the resolution of tissue damage. When activated by its ligands including CCL3, CCL5-9, CCL13-16 and CCL23, triggers a signaling cascade within immune cells, leading to their migration towards the source of the chemokine (PubMed:15905581). For example, mediates neutrophil migration after activation by CCL3 leading to the sequential release of TNF-alpha and leukotriene B4 (By similarity). Mediates also monocyte migration upon CXCL4 binding (PubMed:<a href="http://www.uniprot.org/citations/29930254"

target="_blank">29930254). Activation by CCL5 results in neuroinflammation through the ERK1/2 signaling pathway (By similarity).

Cellular Location

Cell membrane; Multi-pass membrane protein

Tissue Location

Widely expressed in different hematopoietic cells.

CD191 - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- <u>Blocking Peptides</u>
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
