

**KEAP1 Antibody (C-term)**  
**Affinity Purified Rabbit Polyclonal Antibody (Pab)**  
**Catalog # AP10441b****Specification**

---

**KEAP1 Antibody (C-term) - Product Information**

Application	WB, FC,E
Primary Accession	<a href="#">Q14145</a>
Other Accession	<a href="#">Q684M4</a> , <a href="#">NP_036421.2</a> , <a href="#">NP_987096.1</a>
Reactivity	Human
Predicted	Pig
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Antigen Region	429-459aa

**KEAP1 Antibody (C-term) - Additional Information****Gene ID** 9817**Other Names**

Kelch-like ECH-associated protein 1, Cytosolic inhibitor of Nrf2, INrf2, Kelch-like protein 19, KEAP1, INRF2, KIAA0132, KLHL19

**Target/Specificity**

This KEAP1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide selected from the C-terminal region of human KEAP1.

**Dilution**WB~~1:1000  
FC~~1:10~50**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

KEAP1 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

**KEAP1 Antibody (C-term) - Protein Information****Name** KEAP1 {ECO:0000303|PubMed:14585973, ECO:0000312|HGNC:HGNC:23177}

**Function** Substrate-specific adapter of a BCR (BTB-CUL3-RBX1) E3 ubiquitin ligase complex that regulates the response to oxidative stress by targeting NFE2L2/NRF2 for ubiquitination (PubMed:[14585973](#), PubMed:[15379550](#), PubMed:[15572695](#), PubMed:[15601839](#), PubMed:[15983046](#), PubMed:[37339955](#)). KEAP1 acts as a key sensor of oxidative and electrophilic stress: in normal conditions, the BCR(KEAP1) complex mediates ubiquitination and degradation of NFE2L2/NRF2, a transcription factor regulating expression of many cytoprotective genes (PubMed:[15601839](#), PubMed:[16006525](#)). In response to oxidative stress, different electrophile metabolites trigger non-enzymatic covalent modifications of highly reactive cysteine residues in KEAP1, leading to inactivate the ubiquitin ligase activity of the BCR(KEAP1) complex, promoting NFE2L2/NRF2 nuclear accumulation and expression of phase II detoxifying enzymes (PubMed:[16006525](#), PubMed:[17127771](#), PubMed:[18251510](#), PubMed:[19489739](#), PubMed:[29590092](#)). In response to selective autophagy, KEAP1 is sequestered in inclusion bodies following its interaction with SQSTM1/p62, leading to inactivation of the BCR(KEAP1) complex and activation of NFE2L2/NRF2 (PubMed:[20452972](#)). The BCR(KEAP1) complex also mediates ubiquitination of SQSTM1/p62, increasing SQSTM1/p62 sequestering activity and degradation (PubMed:[28380357](#)). The BCR(KEAP1) complex also targets BPTF and PGAM5 for ubiquitination and degradation by the proteasome (PubMed:[15379550](#), PubMed:[17046835](#)).

#### Cellular Location

Cytoplasm. Nucleus. Note=Mainly cytoplasmic (PubMed:[15601839](#)). In response to selective autophagy, relocalizes to inclusion bodies following interaction with SQSTM1/p62 (PubMed:[20452972](#)).

#### Tissue Location

Broadly expressed, with highest levels in skeletal muscle.

#### KEAP1 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
