

FCN3 Antibody (C-term)
Affinity Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP12561b**Specification**

FCN3 Antibody (C-term) - Product Information

Application	WB, IHC-P, FC,E
Primary Accession	O75636
Other Accession	NP_775628.1 , NP_003656.2
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	32903
Antigen Region	214-243

FCN3 Antibody (C-term) - Additional Information**Gene ID** 8547**Other Names**

Ficolin-3, Collagen/fibrinogen domain-containing lectin 3 p35, Collagen/fibrinogen domain-containing protein 3, Hakata antigen, FCN3, FCNH, HAKA1

Target/Specificity

This FCN3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 214-243 amino acids from the C-terminal region of human FCN3.

DilutionWB~~1:500
IHC-P~~1:10~50
FC~~1:10~50**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

FCN3 Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

FCN3 Antibody (C-term) - Protein Information**Name** FCN3

Synonyms FCNH, HAKA1

Function May function in innate immunity through activation of the lectin complement pathway. Calcium-dependent and GlcNAc-binding lectin. Has affinity with GalNAc, GlcNAc, D-fucose, as mono/oligosaccharide and lipopolysaccharides from *S.typhimurium* and *S.minnesota*.

Cellular Location

Secreted. Note=Found in blood plasma, bronchus, alveolus and bile duct

Tissue Location

Liver and lung. In liver it is produced by bile duct epithelial cells and hepatocytes. In lung it is produced by both ciliated bronchial epithelial cells and type II alveolar epithelial cells.

FCN3 Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)

FCN3 Antibody (C-term) - Images

FCN3 Antibody (C-term) (Cat. #AP12561b) western blot analysis in K562 cell line lysates (35ug/lane). This demonstrates the FCN3 antibody detected the FCN3 protein (arrow).

Anti-FCN3 Antibody (C-term) at 1:500 dilution + Jurkat whole cell lysate Lysates/proteins at 20 µg per lane. Secondary Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/10000 dilution. Predicted band size : 33 kDa Blocking/Dilution buffer: 5% NFDM/TBST.

FCN3 Antibody (C-term) (Cat. #AP12561b) immunohistochemistry analysis in formalin fixed and paraffin embedded human lung tissue followed by peroxidase conjugation of the secondary antibody and DAB staining. This data demonstrates the use of FCN3 Antibody (C-term) for immunohistochemistry. Clinical relevance has not been evaluated.

FCN3 Antibody (C-term) (Cat. #AP12561b) flow cytometric analysis of K562 cells (right histogram) compared to a negative control cell (left histogram). FITC-conjugated donkey-anti-rabbit secondary antibodies were used for the analysis.

FCN3 Antibody (C-term) - Background

Ficolins are a group of proteins which consist of a collagen-like domain and a fibrinogen-like domain. In human serum, there are two types of ficolins, both of which have lectin activity. The protein encoded by this gene is a thermolabile beta-2-macroglycoprotein found in all human serum and is a member of the ficolin/opsonin p35 lectin family. The protein, which was initially identified based on its reactivity with sera from patients with systemic lupus erythematosus, has been shown to have a calcium-independent lectin activity. The protein can activate the complement pathway in association with MASPs and sMAP, thereby aiding in host defense through the activation of the lectin pathway. Alternative splicing occurs at this locus and two variants, each encoding a distinct isoform, have been identified.
