

**Rax Antibody (C-term)**  
**Affinity Purified Rabbit Polyclonal Antibody (Pab)**  
**Catalog # AP1428b****Specification**

---

**Rax Antibody (C-term) - Product Information**

Application	WB,E
Primary Accession	<a href="#">O9Y2V3</a>
Other Accession	<a href="#">O9JLT7</a> , <a href="#">O35602</a>
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	36676
Antigen Region	315-346

**Rax Antibody (C-term) - Additional Information****Gene ID** 30062**Other Names**

Retinal homeobox protein Rx, Retina and anterior neural fold homeobox protein, RAX, RX

**Target/Specificity**

This Rax antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 315-346 amino acids from the C-terminal region of human Rax.

**Dilution**

WB~~1:1000

**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

Rax Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

**Rax Antibody (C-term) - Protein Information****Name** RAX**Synonyms** RX

**Function** Plays a critical role in eye formation by regulating the initial specification of retinal cells and/or their subsequent proliferation. Binds to the photoreceptor conserved element-I (PCE- 1/Ret 1) in the photoreceptor cell-specific arrestin promoter.

**Cellular Location**

Nucleus.

**Tissue Location**

Expressed in the developing eye and weakly expressed in the adult retina

**Rax Antibody (C-term) - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

**Rax Antibody (C-term) - Images**

Rax Antibody (C-term) (Cat. #AP1428b) western blot analysis in Y79 cell line, mouse brain, cerebellum and rat brain, cerebellum tissue lysates (35ug/lane). This demonstrates the Rax antibody detected the Rax protein (arrow).

**Rax Antibody (C-term) - Background**

Rax plays a critical role in eye formation by regulating the initial specification of retinal cells and/or their subsequent proliferation. It binds to the photoreceptor conserved element-I (PCE-1/Ret 1) in the photoreceptor cell-specific arrestin promoter.
