

**CALCA/CT Antibody (C-term)**  
**Affinity Purified Rabbit Polyclonal Antibody (Pab)**  
**Catalog # AP14934b**

**Specification**

---

**CALCA/CT Antibody (C-term) - Product Information**

Application	WB,E
Primary Accession	<a href="#">P01258</a>
Other Accession	<a href="#">NP_001732.1</a> , <a href="#">NP_001029124.1</a>
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	15467
Antigen Region	104-132

**CALCA/CT Antibody (C-term) - Additional Information**

**Gene ID** 796

**Other Names**

Calcitonin, Calcitonin, Katalcalcin, Calcitonin carboxyl-terminal peptide, CCP, PDN-21, CALCA, CALC1

**Target/Specificity**

This CALCA/CT antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 104-132 amino acids from the C-terminal region of human CALCA/CT.

**Dilution**

WB~~1:1000

**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

CALCA/CT Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

**CALCA/CT Antibody (C-term) - Protein Information**

**Name** CALCA ([HGNC:1437](#))

**Synonyms** CALC1

**Function** [Calcitonin]: Calcitonin is a peptide hormone that causes a rapid but short-lived drop in the level of calcium and phosphate in blood by promoting the incorporation of those ions in the bones. Calcitonin function is mediated by the calcitonin receptor/CALCR and the CALCR-RAMP2 (AMYR2) receptor complex (PubMed:[35324283](#)).

#### **Cellular Location**

Secreted.

#### **CALCA/CT Antibody (C-term) - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

#### **CALCA/CT Antibody (C-term) - Images**

CALCA/CT Antibody (C-term) (Cat. #AP14934b) western blot analysis in MDA-MB231 cell line lysates (35ug/lane). This demonstrates the CALCA/CT antibody detected the CALCA/CT protein (arrow).

#### **CALCA/CT Antibody (C-term) - Background**

This gene encodes the peptide hormones calcitonin, calcitonin gene-related peptide and katecalcitonin by tissue-specific alternative RNA splicing of the gene transcripts and cleavage of inactive precursor proteins. Calcitonin is involved in calcium regulation and acts to regulate phosphorus metabolism. Calcitonin gene-related peptide functions as a vasodilator while katecalcitonin is a calcium-lowering peptide. Multiple transcript variants encoding different isoforms have been found for this gene.
