

AMPH Antibody (C-term)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP21117a**Specification**

AMPH Antibody (C-term) - Product Information

Application	WB,E
Primary Accession	P49418
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	76257

AMPH Antibody (C-term) - Additional Information**Gene ID** 273**Other Names**

Amphiphysin, AMPH, AMPH1

Target/Specificity

This AMPH antibody is generated from a rabbit immunized with a KLH conjugated synthetic peptide between 580-614 amino acids from the C-terminal region of human AMPH.

Dilution

WB~~1:1000

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

AMPH Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

AMPH Antibody (C-term) - Protein Information**Name** AMPH**Synonyms** AMPH1**Function** May participate in mechanisms of regulated exocytosis in synapses and certain endocrine cell types. May control the properties of the membrane associated cytoskeleton.

Cellular Location

Cytoplasmic vesicle, secretory vesicle, synaptic vesicle membrane; Peripheral membrane protein; Cytoplasmic side Cytoplasm, cytoskeleton

Tissue Location

Neurons, certain endocrine cell types and spermatocytes

AMPH Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

AMPH Antibody (C-term) - Images

Western blot analysis of lysates from SH-SY5Y cell line, human brain tissue lysate (from left to right), using AMPH Antibody (C-term) (Cat. #AP21117a). AP21117a was diluted at 1:1000 at each lane. A goat anti-rabbit IgG H&L (HRP) at 1:10000 dilution was used as the secondary antibody. Lysates at 20ug per lane.

AMPH Antibody (C-term) - Background

May participate in mechanisms of regulated exocytosis in synapses and certain endocrine cell types. May control the properties of the membrane associated cytoskeleton.
