

**APG3(cleaved) Antibody**  
**Affinity Purified Rabbit Polyclonal Antibody (Pab)**  
**Catalog # AP3740a**

**Specification**

---

**APG3(cleaved) Antibody - Product Information**

Application	DB,E
Primary Accession	<a href="#">O9NT62</a>
Other Accession	<a href="#">O6AZ50</a> , <a href="#">O9CPX6</a> , <a href="#">O6PFS7</a> , <a href="#">O0VCL3</a>
Reactivity	Human
Predicted	Bovine, Zebrafish, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	35864
Antigen Region	90-104

**APG3(cleaved) Antibody - Additional Information**

**Gene ID** 64422

**Other Names**

Ubiquitin-like-conjugating enzyme ATG3, 632-, Autophagy-related protein 3, APG3-like, hAp3, Protein PC3-96, ATG3, APG3, APG3L

**Target/Specificity**

This APG3-cleaved Antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide 90-104aa selected from human APG3.

**Dilution**

DB~~1:500

**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is purified through a protein A column, followed by peptide affinity purification.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

APG3(cleaved) Antibody is for research use only and not for use in diagnostic or therapeutic procedures.

**APG3(cleaved) Antibody - Protein Information**

**Name** ATG3 ([HGNC:20962](#))

## Synonyms APG3, APG3L

**Function** E2 conjugating enzyme that catalyzes the covalent conjugation of the C-terminal Gly of ATG8-like proteins (GABARAP, GABARAPL1, GABARAPL2 or MAP1LC3A) to the amino group of phosphatidylethanolamine (PE)-containing lipids in the membrane resulting in membrane-bound ATG8-like proteins which is one of the key steps in the development of autophagic isolation membranes during autophagosome formation (PubMed:[24191030](#), PubMed:[33446636](#), PubMed:[37252361](#)). Cycles back and forth between binding to ATG7 for loading with the ATG8-like proteins and binding to E3 enzyme, composed of ATG12, ATG5 and ATG16L1 to promote ATG8-like proteins lipidation (PubMed:[11825910](#), PubMed:[12207896](#), PubMed:[12890687](#), PubMed:[16704426](#), PubMed:[24186333](#)). Also plays a role as a membrane curvature sensor that facilitates LC3/GABARAP lipidation by sensing local membrane stress associated with lipid-packing defects as occurs with high molar proportions of conical lipids or strident membrane curvature (By similarity). Interacts with negatively-charged membranes promoting membrane tethering and enhancing LC3/GABARAP lipidation (PubMed:[29142222](#)). Also acts as an autocatalytic E2-like enzyme by catalyzing the conjugation of ATG12 to itself in an ATG7-dependent manner, this complex thus formed, plays a role in mitochondrial homeostasis but not in autophagy (By similarity). ATG12-ATG3 conjugation promotes late endosome to lysosome trafficking and basal autophagosome maturation via its interaction with PDCD6IP (By similarity). ATG12-ATG3 conjugate is also formed upon vaccinia virus infection, leading to the disruption the cellular autophagy which is not necessary for vaccinia survival and proliferation (By similarity). Promotes primary ciliogenesis by removing OFD1 from centriolar satellites via the autophagic pathway (By similarity).

## Cellular Location

Cytoplasm.

## Tissue Location

Widely expressed, with a highest expression in heart, skeletal muscle, kidney, liver and placenta

## APG3(cleaved) Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

## APG3(cleaved) Antibody - Images

Dot blot analysis of anti-APG3-cleaved Pab (Cat. #AP3740a) on nitrocellulose membrane. 50ng of Cleaved-peptide or Non Cleaved-peptide per dot were adsorbed. Antibody working concentrations are 0.6ug per ml.
