

Anti-PKI beta Antibody
Catalog # AP54025

Specification

Anti-PKI beta Antibody - Product Information

Application	WB, IF
Primary Accession	O9C010
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal
Calculated MW	8468

Anti-PKI beta Antibody - Additional Information

Gene ID 5570

Other Names

PRKACN2; cAMP-dependent protein kinase inhibitor beta; PKI-beta

Target/Specificity

Recognizes endogenous levels of PKI beta protein.

Dilution

WB~~1/500 - 1/1000

IF~~1/50 - 1/200

Format

Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.09% (W/V) sodium azide.

Storage

Store at -20 °C. Stable for 12 months from date of receipt

Anti-PKI beta Antibody - Protein Information

Name PKIB

Synonyms PRKACN2

Function

Extremely potent competitive inhibitor of cAMP-dependent protein kinase activity, this protein interacts with the catalytic subunit of the enzyme after the cAMP-induced dissociation of its regulatory chains.

Anti-PKI beta Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

Anti-PKI beta Antibody - Images

Western blot analysis of PKI beta expression in BV2 (A), PC12 (B), U87MG (C) whole cell lysates.

Immunohistochemical analysis of PKI beta staining in human brain formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

Immunofluorescent analysis of PKI beta staining in MCF7 cells. Formalin-fixed cells were permeabilized with 0.1% Triton X-100 in TBS for 5-10 minutes and blocked with 3% BSA-PBS for 30 minutes at room temperature. Cells were probed with the primary antibody in 3% BSA-PBS and incubated overnight at 4 °C in a humidified chamber. Cells were washed with PBST and incubated with a Alexa Fluor 594-conjugated secondary antibody (red) in PBS at room temperature in the dark.

Anti-PKI beta Antibody - Background

Rabbit polyclonal antibody to PKI beta
