

**Anti-CSK Antibody**  
Rabbit polyclonal antibody to CSK  
Catalog # AP59994

**Specification**

---

**Anti-CSK Antibody - Product Information**

Application	<b>WB</b>
Primary Accession	<a href="#">P41240</a>
Other Accession	<a href="#">P41241</a>
Reactivity	<b>Human, Mouse, Rat, Monkey, Bovine</b>
Host	<b>Rabbit</b>
Clonality	<b>Polyclonal</b>
Calculated MW	<b>50704</b>

**Anti-CSK Antibody - Additional Information**

**Gene ID** 1445

**Other Names**

Tyrosine-protein kinase CSK; C-Src kinase; Protein-tyrosine kinase CYL

**Target/Specificity**

Recognizes endogenous levels of CSK protein.

**Dilution**

WB~~WB (1/500 - 1/1000)

**Format**

Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.09% (W/V) sodium azide.

**Storage**

Store at -20 °C. Stable for 12 months from date of receipt

**Anti-CSK Antibody - Protein Information**

**Name** CSK

**Function**

Non-receptor tyrosine-protein kinase that plays an important role in the regulation of cell growth, differentiation, migration and immune response. Phosphorylates tyrosine residues located in the C-terminal tails of Src-family kinases (SFKs) including LCK, SRC, HCK, FYN, LYN, CSK or YES1. Upon tail phosphorylation, Src-family members engage in intramolecular interactions between the phosphotyrosine tail and the SH2 domain that result in an inactive conformation. To inhibit SFKs, CSK is recruited to the plasma membrane via binding to transmembrane proteins or adapter proteins located near the plasma membrane. Suppresses signaling by various surface receptors, including T-cell receptor (TCR) and B-cell receptor (BCR) by phosphorylating and maintaining inactive several positive effectors such as FYN or LCK.

**Cellular Location**

Cytoplasm. Cell membrane. Note=Mainly cytoplasmic, also present in lipid rafts

**Tissue Location**

Expressed in lung and macrophages.

**Anti-CSK Antibody - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

**Anti-CSK Antibody - Images**

Western blot analysis of CSK expression in mouse spleen (A), rat spleen (B) whole cell lysates.

**Anti-CSK Antibody - Background**

KLH-conjugated synthetic peptide encompassing a sequence within the N-term region of human CSK. The exact sequence is proprietary.
