

Anti-PRAS40 (pT246) Antibody
Rabbit polyclonal antibody to PRAS40 (pT246)
Catalog # AP60424

Specification

Anti-PRAS40 (pT246) Antibody - Product Information

| | |
|-------------------|---------------------------|
| Application | WB |
| Primary Accession | O96B36 |
| Other Accession | O9D1F4 |
| Reactivity | Human, Mouse, Rat, Bovine |
| Host | Rabbit |
| Clonality | Polyclonal |
| Calculated MW | 27383 |

Anti-PRAS40 (pT246) Antibody - Additional Information

Gene ID 84335

Other Names

PRAS40; Proline-rich AKT1 substrate 1; 40 kDa proline-rich AKT substrate

Target/Specificity

Recognizes endogenous levels of PRAS40 (pT246) protein.

Dilution

WB~~WB (1/500 - 1/1000)

Format

Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.09% (W/V) sodium azide.

Storage

Store at -20 °C. Stable for 12 months from date of receipt

Anti-PRAS40 (pT246) Antibody - Protein Information

Name AKT1S1 {ECO:0000312|EMBL:AAH16043.1}

Function

Negative regulator of the mechanistic target of rapamycin complex 1 (mTORC1), an evolutionarily conserved central nutrient sensor that stimulates anabolic reactions and macromolecule biosynthesis to promote cellular biomass generation and growth (PubMed:17277771, PubMed:17386266, PubMed:17510057, PubMed:29236692). In absence of insulin and nutrients, AKT1S1 associates with the mTORC1 complex and directly inhibits mTORC1 activity by blocking the MTOR substrate- recruitment site (PubMed:29236692). In response to insulin and nutrients, AKT1S1 dissociates from mTORC1 (PubMed:17386266, PubMed:18372248). Its activity is dependent on its phosphorylation state and binding to 14-3-3 (PubMed:16174443, PubMed:18372248). May also play a role in nerve growth factor-mediated neuroprotection (By similarity).

Cellular Location

Cytoplasm, cytosol {ECO:0000250|UniProtKB:Q9D1F4}. Note=Found in the cytosolic fraction of the brain. {ECO:0000250|UniProtKB:Q9D1F4}

Tissue Location

Widely expressed with highest levels of expression in liver and heart. Expressed at higher levels in cancer cell lines (e.g. A-549 and HeLa) than in normal cell lines (e.g. HEK293)

Anti-PRAS40 (pT246) Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
- [Cell Culture](#)

Anti-PRAS40 (pT246) Antibody - Images

Western blot analysis of PRAS40 (pT246) expression in HEK293T (A), A549 (B), mouse kidney (C), mouse testis (D), rat kidney (E), rat testis (F) whole cell lysates.

Anti-PRAS40 (pT246) Antibody - Background

KLH-conjugated synthetic peptide encompassing a sequence within the C-term region of human PRAS40 (pT246). The exact sequence is proprietary.
