## Anti-ABL1/2 Antibody - Images

Western blot analysis of ABL1/2 expression in K562 (A), Myla2059 (B) whole cell lysates.

Immunohistochemical analysis of ABL1/2 staining in human lung cancer formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

## Anti-ABL1/2 Antibody - Background

KLH-conjugated synthetic peptide encompassing a sequence within the center region of human ABL1/2. The exact sequence is proprietary.
