

MTBP Antibody (C-term)
Purified Rabbit Polyclonal Antibody (Pab)
Catalog # AP6657b

Specification

MTBP Antibody (C-term) - Product Information

Application	WB, IHC-P, FC,E
Primary Accession	O96DY7
Other Accession	O8BJS8
Reactivity	Human
Predicted	Mouse
Host	Rabbit
Clonality	Polyclonal
Isotype	Rabbit IgG
Calculated MW	102193
Antigen Region	853-881

MTBP Antibody (C-term) - Additional Information

Gene ID 27085

Other Names

Mdm2-binding protein, hMTBP, MTBP

Target/Specificity

This MTBP antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 853-881 amino acids from the C-terminal region of human MTBP.

Dilution

WB~~1:1000
IHC-P~~1:50~100
FC~~1:10~50

Format

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

Storage

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

Precautions

MTBP Antibody (C-term) is for research use only and not for use in diagnostic or therapeutic procedures.

MTBP Antibody (C-term) - Protein Information

Name MTBP

Function Inhibits cell migration in vitro and suppresses the invasive behavior of tumor cells (By similarity). May play a role in MDM2- dependent p53/TP53 homeostasis in unstressed cells. Inhibits autoubiquitination of MDM2, thereby enhancing MDM2 stability. This promotes MDM2-mediated ubiquitination of p53/TP53 and its subsequent degradation.

MTBP Antibody (C-term) - Protocols

Provided below are standard protocols that you may find useful for product applications.

MTBP Antibody (C-term) - Images

Western blot analysis of MTBP antibody (C-term) (Cat. #AP6657b) in K562 cell line lysates (35ug/lane). MTBP (arrow) was detected using the purified Pab.

Formalin-fixed and paraffin-embedded human prostate carcinoma reacted with MTBP Antibody (C-term), which was peroxidase-conjugated to the secondary antibody, followed by DAB staining. This data demonstrates the use of this antibody for immunohistochemistry; clinical relevance has

not been evaluated.

Flow cytometric analysis of K562 cells using MTBP Antibody (C-term)(bottom histogram) compared to a negative control cell (top histogram) FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis.

MTBP Antibody (C-term) - Background

MTBP inhibits cell migration in vitro and suppresses the invasive behavior of tumor cells. The protein may play a role in MDM2-dependent TP53/p53 homeostasis in unstressed cells. The protein inhibits autoubiquitination of MDM2, thereby enhancing MDM2 stability. This promotes MDM2-mediated ubiquitination of TP53/p53 and its subsequent degradation.
