

Bcl-2 (phospho Ser87) Polyclonal Antibody
Catalog # AP67578**Specification****Bcl-2 (phospho Ser87) Polyclonal Antibody - Product Information**

Application	WB
Primary Accession	P10415
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal

Bcl-2 (phospho Ser87) Polyclonal Antibody - Additional Information

Gene ID 596

Other Names

BCL2; Apoptosis regulator Bcl-2

Dilution

WB~~Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. ELISA: 1/5000. Not yet tested in other applications.

Format

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

Storage Conditions

-20°C

Bcl-2 (phospho Ser87) Polyclonal Antibody - Protein Information

Name BCL2

Function

Suppresses apoptosis in a variety of cell systems including factor-dependent lymphohematopoietic and neural cells (PubMed: [1508712](http://www.uniprot.org/citations/1508712) target="_blank">1508712, PubMed: [8183370](http://www.uniprot.org/citations/8183370) target="_blank">8183370). Regulates cell death by controlling the mitochondrial membrane permeability (PubMed: [11368354](http://www.uniprot.org/citations/11368354) target="_blank">11368354). Appears to function in a feedback loop system with caspases (PubMed: [11368354](http://www.uniprot.org/citations/11368354) target="_blank">11368354). Inhibits caspase activity either by preventing the release of cytochrome c from the mitochondria and/or by binding to the apoptosis-activating factor (APAF-1) (PubMed: [11368354](http://www.uniprot.org/citations/11368354) target="_blank">11368354). Also acts as an inhibitor of autophagy: interacts with BECN1 and AMBRA1 during non-starvation conditions and inhibits their autophagy function (PubMed: [18570871](http://www.uniprot.org/citations/18570871) target="_blank">18570871, PubMed: [20889974](http://www.uniprot.org/citations/20889974) target="_blank">20889974, PubMed: [21358617](http://www.uniprot.org/citations/21358617) target="_blank">21358617). May attenuate inflammation by impairing NLRP1-

inflammasome activation, hence CASP1 activation and IL1B release (PubMed:17418785).

Cellular Location

Mitochondrion outer membrane; Single-pass membrane protein. Nucleus membrane; Single-pass membrane protein. Endoplasmic reticulum membrane; Single-pass membrane protein. Cytoplasm {ECO:0000250|UniProtKB:P10417}

Tissue Location

Expressed in a variety of tissues.

Bcl-2 (phospho Ser87) Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
