WB~~1:1000

**Format**

Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS.

**Storage**

Maintain refrigerated at 2-8°C for up to 2 weeks. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.

**Precautions**

FSHB Antibody (Center T70) is for research use only and not for use in diagnostic or therapeutic procedures.

**FSHB Antibody (Center T70) - Protein Information**

**Name** FSHB

**Function** Together with the alpha chain CGA constitutes follitropin, the follicle-stimulating

hormone, and provides its biological specificity to the hormone heterodimer. Binds FSHR, a G protein-coupled receptor, on target cells to activate downstream signaling pathways (PubMed:[24692546](#), PubMed:[2494176](#)). Follitropin is involved in follicle development and spermatogenesis in reproductive organs (PubMed:[407105](#), PubMed:[8220432](#)).

#### Cellular Location

Secreted. Note=Efficient secretion requires dimerization with CGA
