

ERCC1 Polyclonal Antibody
Catalog # AP69797**Specification**

ERCC1 Polyclonal Antibody - Product Information

Application	WB
Primary Accession	P07992
Reactivity	Human, Mouse
Host	Rabbit
Clonality	Polyclonal

ERCC1 Polyclonal Antibody - Additional Information**Gene ID** 2067**Other Names**

ERCC1; DNA excision repair protein ERCC-1

Dilution

WB~~Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. ELISA: 1/20000. Not yet tested in other applications.

Format

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

Storage Conditions

-20°C

ERCC1 Polyclonal Antibody - Protein Information**Name** ERCC1**Function**

[Isoform 1]: Non-catalytic component of a structure-specific DNA repair endonuclease responsible for the 5'-incision during DNA repair. Responsible, in conjunction with SLX4, for the first step in the repair of interstrand cross-links (ICL). Participates in the processing of anaphase bridge-generating DNA structures, which consist in incompletely processed DNA lesions arising during S or G2 phase, and can result in cytokinesis failure. Also required for homology-directed repair (HDR) of DNA double-strand breaks, in conjunction with SLX4.

Cellular Location

[Isoform 1]: Nucleus [Isoform 3]: Nucleus

ERCC1 Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
