

**GATA-4 Polyclonal Antibody**  
Catalog # AP70046**Specification**

---

**GATA-4 Polyclonal Antibody - Product Information**

|                   |                        |
|-------------------|------------------------|
| Application       | WB                     |
| Primary Accession | <a href="#">P43694</a> |
| Reactivity        | Human, Mouse, Rat      |
| Host              | Rabbit                 |
| Clonality         | Polyclonal             |

**GATA-4 Polyclonal Antibody - Additional Information****Gene ID** 2626**Other Names**

GATA4; Transcription factor GATA-4; GATA-binding factor 4

**Dilution**

WB~~Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. ELISA: 1/5000. Not yet tested in other applications.

**Format**

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

**Storage Conditions**

-20°C

**GATA-4 Polyclonal Antibody - Protein Information****Name** GATA4**Function**

Transcriptional activator that binds to the consensus sequence 5'-AGATAG-3' and plays a key role in cardiac development and function (PubMed:[24000169](http://www.uniprot.org/citations/24000169)), PubMed:[27984724](http://www.uniprot.org/citations/27984724)), PubMed:[35182466](http://www.uniprot.org/citations/35182466)). In cooperation with TBX5, it binds to cardiac super-enhancers and promotes cardiomyocyte gene expression, while it down-regulates endocardial and endothelial gene expression (PubMed:[27984724](http://www.uniprot.org/citations/27984724)). Involved in bone morphogenetic protein (BMP)-mediated induction of cardiac-specific gene expression. Binds to BMP response element (BMPRE) DNA sequences within cardiac activating regions (By similarity). Acts as a transcriptional activator of ANF in cooperation with NKX2-5 (By similarity). Promotes cardiac myocyte enlargement (PubMed:[20081228](http://www.uniprot.org/citations/20081228)). Required during testicular development (PubMed:[21220346](http://www.uniprot.org/citations/21220346)). May play a role in sphingolipid signaling by regulating the expression of sphingosine-1- phosphate degrading

enzyme, sphingosine-1-phosphate lyase (PubMed:<a href="http://www.uniprot.org/citations/15734735" target="\_blank">15734735</a>).
