

Nesprin-3 Polyclonal Antibody
Catalog # AP71222**Specification**

Nesprin-3 Polyclonal Antibody - Product Information

Application	WB
Primary Accession	Q6ZMZ3
Reactivity	Human, Mouse
Host	Rabbit
Clonality	Polyclonal

Nesprin-3 Polyclonal Antibody - Additional Information**Gene ID** 161176**Other Names**

SYNE3; C14orf49; Nesprin-3; Nuclear envelope spectrin repeat protein 3

Dilution

WB~~Western Blot: 1/500 - 1/2000. Immunofluorescence: 1/200 - 1/1000. ELISA: 1/40000. Not yet tested in other applications.

Format

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

Storage Conditions

-20°C

Nesprin-3 Polyclonal Antibody - Protein Information**Name** SYNE3 ([HGNC:19861](#))**Function**

As a component of the LINC (Linker of Nucleoskeleton and Cytoskeleton) complex involved in the connection between the nuclear lamina and the cytoskeleton. The nucleocytoplasmic interactions established by the LINC complex play an important role in the transmission of mechanical forces across the nuclear envelope and in nuclear movement and positioning. Probable anchoring protein which tethers the nucleus to the cytoskeleton by binding PLEC which can associate with the intermediate filament system. Plays a role in the regulation of aortic epithelial cell morphology, and is required for flow-induced centrosome polarization and directional migration in aortic endothelial cells.

Cellular Location

Nucleus outer membrane; Single-pass type IV membrane protein. Nucleus envelope. Rough endoplasmic reticulum

Tissue Location

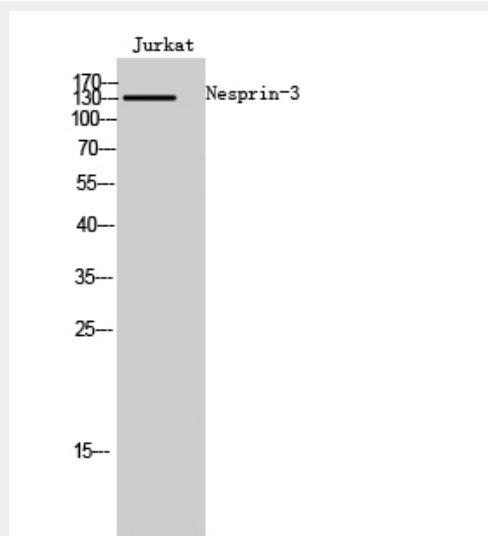

Expressed in aortic endothelial cells (at protein level).

Nesprin-3 Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
