

Topo II α Polyclonal Antibody
Catalog # AP73232**Specification**

Topo II α Polyclonal Antibody - Product Information

Application	WB
Primary Accession	P11388
Reactivity	Human, Mouse
Host	Rabbit
Clonality	Polyclonal

Topo II α Polyclonal Antibody - Additional Information**Gene ID** 7153**Other Names**

TOP2A; TOP2; DNA topoisomerase 2-alpha; DNA topoisomerase II, alpha isozyme

Dilution

WB~~Western Blot: 1/500 - 1/2000. ELISA: 1/5000. Not yet tested in other applications.

Format

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

Storage Conditions

-20°C

Topo II α Polyclonal Antibody - Protein Information**Name** TOP2A**Synonyms** TOP2**Function**

Key decatenating enzyme that alters DNA topology by binding to two double-stranded DNA molecules, generating a double-stranded break in one of the strands, passing the intact strand through the broken strand, and religating the broken strand (PubMed:17567603, PubMed:18790802, PubMed:22013166, PubMed:22323612). May play a role in regulating the period length of BMAL1 transcriptional oscillation (By similarity).

Cellular Location

Cytoplasm. Nucleus, nucleoplasm. Nucleus. Nucleus, nucleolus

Tissue Location

Expressed in the tonsil, spleen, lymph node, thymus, skin, pancreas, testis, colon, kidney, liver,

brain and lung (PubMed:9155056). Also found in high-grade lymphomas, squamous cell lung tumors and seminomas (PubMed:9155056)

Topo II α Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

Topo II α Polyclonal Antibody - Images

Topo II α Polyclonal Antibody - Background

Control of topological states of DNA by transient breakage and subsequent rejoining of DNA strands. Topoisomerase II makes double-strand breaks. Essential during mitosis and meiosis for proper segregation of daughter chromosomes. May play a role in regulating the period length of ARNTL/BMAL1 transcriptional oscillation (By similarity).
