

NUMB Polyclonal Antibody
Catalog # AP73503**Specification**

NUMB Polyclonal Antibody - Product Information

Application	WB
Primary Accession	P49757
Reactivity	Human, Mouse, Rat
Host	Rabbit
Clonality	Polyclonal

NUMB Polyclonal Antibody - Additional Information**Gene ID** 8650**Other Names**

NUMB; Protein numb homolog; h-Numb; Protein S171

Dilution

WB~~Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.

Format

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

Storage Conditions

-20°C

NUMB Polyclonal Antibody - Protein Information**Name** NUMB ([HGNC:8060](#))**Function**

Regulates clathrin-mediated receptor endocytosis (PubMed:18657069). Plays a role in the process of neurogenesis (By similarity). Required throughout embryonic neurogenesis to maintain neural progenitor cells, also called radial glial cells (RGCs), by allowing their daughter cells to choose progenitor over neuronal cell fate (By similarity). Not required for the proliferation of neural progenitor cells before the onset of neurogenesis. Also involved postnatally in the subventricular zone (SVZ) neurogenesis by regulating SVZ neuroblasts survival and ependymal wall integrity (By similarity). May also mediate local repair of brain ventricular wall damage (By similarity).

Cellular Location

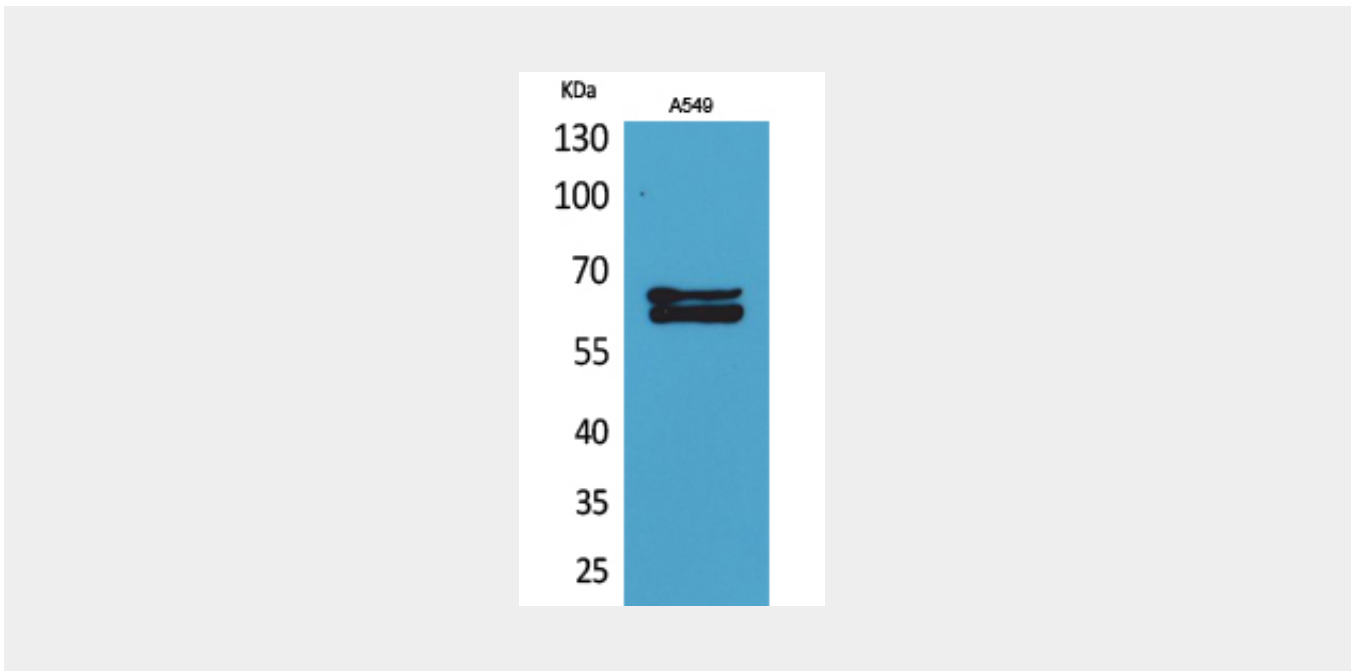

Cell membrane; Peripheral membrane protein; Cytoplasmic side. Endosome membrane; Peripheral membrane protein; Cytoplasmic side. Note=Localizes to perinuclear endosomes in an AAK1-dependent manner.

NUMB Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.
