

**CD274 Polyclonal Antibody**  
Catalog # AP74216**Specification****CD274 Polyclonal Antibody - Product Information**

Application	IHC
Primary Accession	<a href="#">O9NZQ7</a>
Reactivity	Human
Host	Rabbit
Clonality	Polyclonal

**CD274 Polyclonal Antibody - Additional Information**

Gene ID 29126

**Other Names**

Programmed cell death 1 ligand 1 (PD-L1) (PDCD1 ligand 1) (Programmed death ligand 1) (B7 homolog 1) (B7-H1) (CD antigen CD274)

**Dilution**

IHC~~IHC-p 1:50-200, ELISA 1:10000-20000

**Format**

Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.

**Storage Conditions**

-20°C

**CD274 Polyclonal Antibody - Protein Information**Name CD274 ([HGNC:17635](#))**Function**

Plays a critical role in induction and maintenance of immune tolerance to self (PubMed: <a href="http://www.uniprot.org/citations/11015443" target="\_blank">11015443</a>, PubMed: <a href="http://www.uniprot.org/citations/28813410" target="\_blank">28813410</a>, PubMed: <a href="http://www.uniprot.org/citations/28813417" target="\_blank">28813417</a>, PubMed: <a href="http://www.uniprot.org/citations/31399419" target="\_blank">31399419</a>). As a ligand for the inhibitory receptor PDCD1/PD-1, modulates the activation threshold of T-cells and limits T-cell effector response (PubMed: <a href="http://www.uniprot.org/citations/11015443" target="\_blank">11015443</a>, PubMed: <a href="http://www.uniprot.org/citations/28813410" target="\_blank">28813410</a>, PubMed: <a href="http://www.uniprot.org/citations/28813417" target="\_blank">28813417</a>, PubMed: <a href="http://www.uniprot.org/citations/36727298" target="\_blank">36727298</a>). Through a yet unknown activating receptor, may costimulate T-cell subsets that predominantly produce interleukin-10 (IL10) (PubMed: <a href="http://www.uniprot.org/citations/10581077" target="\_blank">10581077</a>). Can also act as a transcription coactivator: in response to hypoxia, translocates into the nucleus via its interaction with phosphorylated STAT3 and promotes transcription of GSDMC, leading to

pyroptosis (PubMed: <a href="http://www.uniprot.org/citations/32929201" target="\_blank">32929201</a>).

#### Cellular Location

Cell membrane; Single-pass type I membrane protein. Early endosome membrane; Single-pass type I membrane protein. Recycling endosome membrane; Single-pass type I membrane protein. Nucleus. Note=Associates with CMTM6 at recycling endosomes, where it is protected from being targeted for lysosomal degradation (PubMed:28813417). Translocates to the nucleus in response to hypoxia via its interaction with phosphorylated STAT3 (PubMed:32929201). [Isoform 2]: Endomembrane system; Single-pass type I membrane protein

#### Tissue Location

Highly expressed in the heart, skeletal muscle, placenta and lung. Weakly expressed in the thymus, spleen, kidney and liver. Expressed on activated T- and B-cells, dendritic cells, keratinocytes and monocytes.

### CD274 Polyclonal Antibody - Protocols

Provided below are standard protocols that you may find useful for product applications.

### **CD274 Polyclonal Antibody - Background**

Plays a critical role in induction and maintenance of immune tolerance to self. As a ligand for the inhibitory receptor PDCD1/CD279, modulates the activation threshold of T-cells and limits T-cell effector response (PubMed:11015443). The PDCD1/CD279-mediated inhibitory pathway is exploited by tumors to attenuate anti-tumor immunity and facilitate tumor survival (PubMed:28813417, PubMed:28813410). Through a yet unknown activating receptor, may costimulate T-cell subsets that predominantly produce interleukin-10 (IL10) (PubMed:10581077).
