

# Poliovirus Receptor Rabbit mAb

Catalog # AP76663

## Specification

# **Poliovirus Receptor Rabbit mAb - Product Information**

Application Primary Accession Reactivity Host Clonality Calculated MW WB <u>P15151</u> Human Rabbit Monoclonal Antibody 45303

### **Poliovirus Receptor Rabbit mAb - Additional Information**

Gene ID 5817

Other Names PVR

**Dilution** WB~~1/500-1/1000

Format Liquid

### **Poliovirus Receptor Rabbit mAb - Protein Information**

Name PVR

Synonyms PVS

#### Function

Mediates NK cell adhesion and triggers NK cell effector functions. Binds two different NK cell receptors: CD96 and CD226. These interactions accumulates at the cell-cell contact site, leading to the formation of a mature immunological synapse between NK cell and target cell. This may trigger adhesion and secretion of lytic granules and IFN-gamma and activate cytotoxicity of activated NK cells. May also promote NK cell-target cell modular exchange, and PVR transfer to the NK cell. This transfer is more important in some tumor cells expressing a lot of PVR, and may trigger fratricide NK cell activation, providing tumors with a mechanism of immunoevasion. Plays a role in mediating tumor cell invasion and migration.

**Cellular Location** 

[Isoform Alpha]: Cell membrane; Single-pass type I membrane protein [Isoform Beta]: Secreted.

### **Poliovirus Receptor Rabbit mAb - Protocols**

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
