

Adiponectin Rabbit mAb
Catalog # AP76838**Specification**

Adiponectin Rabbit mAb - Product Information

Application	WB, IHC
Primary Accession	Q60994
Reactivity	Mouse, Rat
Host	Rabbit
Clonality	Monoclonal Antibody
Calculated MW	26809

Adiponectin Rabbit mAb - Additional Information**Gene ID** 11450**Other Names**

Adipoq

Dilution

WB~~1/500-1/1000

IHC~~1/50-1/100

Format

Liquid

Adiponectin Rabbit mAb - Protein Information**Name** Adipoq**Synonyms** Acdc, Acrp30, Apm1**Function**

Important adipokine involved in the control of fat metabolism and insulin sensitivity, with direct anti-diabetic, anti-atherogenic and anti-inflammatory activities. Stimulates AMPK phosphorylation and activation in the liver and the skeletal muscle, enhancing glucose utilization and fatty-acid combustion. Antagonizes TNF-alpha by negatively regulating its expression in various tissues such as liver and macrophages, and also by counteracting its effects. Inhibits endothelial NF-kappa-B signaling through a cAMP-dependent pathway. May play a role in cell growth, angiogenesis and tissue remodeling by binding and sequestering various growth factors with distinct binding affinities, depending on the type of complex, LMW, MMW or HMW.

Cellular Location

Secreted.

Tissue Location

Synthesized exclusively by adipocytes and secreted into plasma

Adiponectin Rabbit mAb - Protocols

Provided below are standard protocols that you may find useful for product applications.

- [Western Blot](#)
- [Blocking Peptides](#)
- [Dot Blot](#)
- [Immunohistochemistry](#)
- [Immunofluorescence](#)
- [Immunoprecipitation](#)
- [Flow Cytometry](#)
