

# Metalloproteinase Inhibitor 1 Rabbit mAb

**Catalog # AP76959** 

### **Specification**

# Metalloproteinase Inhibitor 1 Rabbit mAb - Product Information

Application WB, IHC-P, ICC

Primary Accession
Reactivity
Host
Rabbit

Clonality Monoclonal Antibody

Calculated MW 23171

# Metalloproteinase Inhibitor 1 Rabbit mAb - Additional Information

**Gene ID 7076** 

**Other Names** 

TIMP1

Format Liquid

### Metalloproteinase Inhibitor 1 Rabbit mAb - Protein Information

Name TIMP1

Synonyms CLGI, TIMP

#### **Function**

Metalloproteinase inhibitor that functions by forming one to one complexes with target metalloproteinases, such as collagenases, and irreversibly inactivates them by binding to their catalytic zinc cofactor. Acts on MMP1, MMP2, MMP3, MMP7, MMP8, MMP9, MMP10, MMP11, MMP12, MMP13 and MMP16. Does not act on MMP14. Also functions as a growth factor that regulates cell differentiation, migration and cell death and activates cellular signaling cascades via CD63 and ITGB1. Plays a role in integrin signaling. Mediates erythropoiesis in vitro; but, unlike IL3, it is species-specific, stimulating the growth and differentiation of only human and murine erythroid progenitors.

**Cellular Location** 

Secreted

**Tissue Location** 

Detected in rheumatoid synovial fluid (at protein level).

#### Metalloproteinase Inhibitor 1 Rabbit mAb - Protocols

Tel. 030.073.1900 Lax. 030.073.1999

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
