

# Granulin Rabbit mAb

Catalog # AP77045

## Specification

# Granulin Rabbit mAb - Product Information

Application Primary Accession Reactivity Host Clonality Calculated MW WB <u>P28799</u> Human Rabbit Monoclonal Antibody 63544

## Granulin Rabbit mAb - Additional Information

Gene ID 2896

Other Names GRN

**Dilution** WB~~1/500-1/1000

Format Liquid

## Granulin Rabbit mAb - Protein Information

Name GRN (<u>HGNC:4601</u>)

#### **Function**

Secreted protein that acts as a key regulator of lysosomal function and as a growth factor involved in inflammation, wound healing and cell proliferation (PubMed:<a href="http://www.uniprot.org/citations/12526812" target="\_\_blank">12526812</a>, PubMed:<a

href="http://www.uniprot.org/citations/12526812" target="\_blank">12526812 </a>, PubMed:<a href="http://www.uniprot.org/citations/18378771" target="\_blank">18378771</a>, PubMed:<a href="http://www.uniprot.org/citations/28073925" target="\_blank">28073925</a>, PubMed:<a href="http://www.uniprot.org/citations/28453791" target="\_blank">28453791</a>, PubMed:<a href="http://www.uniprot.org/citations/28453791" target="\_blank">28541286</a>). Regulates protein trafficking to lysosomes and, also the activity of lysosomal enzymes (PubMed:<a href="http://www.uniprot.org/citations/28453791" target="\_blank">28453791</a>, PubMed:<a href="http://www.uniprot.org/citations/28073925" target="\_blank">28453791</a>, PubMed:<a href="http://www.uniprot.org/citations/28073925" target="\_blank">28073925</a>, PubMed:<

neuronal integrity (PubMed:<a href="http://www.uniprot.org/citations/18378771" target="\_blank">18378771</a>).

**Cellular Location** 

Secreted. Lysosome Note=Endocytosed by SORT1 and delivred to lysosomes (PubMed:21092856, PubMed:28073925). Targeted to lysosome by PSAP via M6PR and LRP1, in both biosynthetic and endocytic pathways (PubMed:26370502, PubMed:28073925). Co-localized with GBA1 in the intracellular trafficking compartments until to lysosome (By similarity) {ECO:0000250|UniProtKB:P28798, ECO:0000269|PubMed:21092856, ECO:0000269|PubMed:28073925}

#### **Tissue Location**

In myelogenous leukemic cell lines of promonocytic, promyelocytic, and proerythroid lineage, in fibroblasts, and very strongly in epithelial cell lines. Present in inflammatory cells and bone marrow. Highest levels in kidney

#### Granulin Rabbit mAb - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
