

Haptoglobin Rabbit mAb

Catalog # AP77234

Specification

Haptoglobin Rabbit mAb - Product Information

Application WB
Primary Accession P00738

Reactivity Human, Mouse, Rat

Host Rabb

Clonality Monoclonal Antibody

Calculated MW 45205

Haptoglobin Rabbit mAb - Additional Information

Gene ID 3240

Other Names

HP

Dilution

WB~~1/500-1/1000

Format Liquid

Haptoglobin Rabbit mAb - Protein Information

Name HP

Function

As a result of hemolysis, hemoglobin is found to accumulate in the kidney and is secreted in the urine. Haptoglobin captures, and combines with free plasma hemoglobin to allow hepatic recycling of heme iron and to prevent kidney damage. Haptoglobin also acts as an antioxidant, has antibacterial activity, and plays a role in modulating many aspects of the acute phase response. Hemoglobin/haptoglobin complexes are rapidly cleared by the macrophage CD163 scavenger receptor expressed on the surface of liver Kupfer cells through an endocytic lysosomal degradation pathway.

Cellular Location Secreted.

Tissue Location

Expressed by the liver and secreted in plasma.

Haptoglobin Rabbit mAb - Protocols

Tel: 858.875.1900 Fax: 858.875.1999

Provided below are standard protocols that you may find useful for product applications.

- Western Blot
- Blocking Peptides
- Dot Blot
- <u>Immunohistochemistry</u>
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- Cell Culture
