

# NGFR Rabbit mAb

Catalog # AP77343

### Specification

## NGFR Rabbit mAb - Product Information

Application Primary Accession Reactivity Host Clonality Calculated MW

WB, IHC <u>P08138</u> Human, Mouse, Rat Rabbit Monoclonal Antibody 45183

### NGFR Rabbit mAb - Additional Information

Gene ID 4804

Other Names NGFR

**Dilution** WB~~1/500-1/1000 IHC~~1/50-1/100

Format Liquid

### NGFR Rabbit mAb - Protein Information

Name NGFR

Synonyms TNFRSF16

#### Function

Low affinity receptor which can bind to NGF, BDNF, NTF3, and NTF4. Forms a heterodimeric receptor with SORCS2 that binds the precursor forms of NGF, BDNF and NTF3 with high affinity, and has much lower affinity for mature NGF and BDNF (PubMed:<a href="http://www.uniprot.org/citations/24908487" target="\_blank">24908487</a>). Plays an important role in differentiation and survival of specific neuronal populations during development (By similarity). Can mediate cell survival as well as cell death of neural cells. Plays a role in the inactivation of RHOA (PubMed:<a href="http://www.uniprot.org/citations/26646181" target="\_blank">26646181" target="\_blank">26646181" target="\_blank">26646181</a>). Plays a role in the regulation of the translocation of GLUT4 to the cell surface in adipocytes and skeletal muscle cells in response to insulin, probably by regulating RAB31 activity, and thereby contributes to the regulation of insulin- dependent glucose uptake (By similarity). Necessary for the circadian oscillation of the brain and in liver and of the genes involved in glucose and lipid metabolism in the liver (PubMed:<a href="http://www.uniprot.org/citations/23785138" target="\_blank">23785138</a>). Together with BFAR negatively regulates NF-kappa-B and JNK-related signaling pathways (PubMed:<a

href="http://www.uniprot.org/citations/22566094" target="\_blank">22566094</a>).

Cellular Location Cell membrane; Single-pass type I membrane protein. Cytoplasm. Perikaryon {ECO:0000250|UniProtKB:Q9Z0W1}. Cell projection, growth cone {ECO:0000250|UniProtKB:Q9Z0W1}. Cell projection, dendritic spine {ECO:0000250|UniProtKB:Q9Z0W1}

#### NGFR Rabbit mAb - Protocols

Provided below are standard protocols that you may find useful for product applications.

- <u>Western Blot</u>
- Blocking Peptides
- Dot Blot
- Immunohistochemistry
- Immunofluorescence
- Immunoprecipitation
- Flow Cytomety
- <u>Cell Culture</u>
